MacWAREHOUSE® Order TOLL-FREE 24 hours a day, 7 days a week! **1-800-255-6227**

How to Order

Our sales staff is ready to take your order 24 hours a day, 7 days a week. Please have the product name and item number, your credit card number and expiration date, billing address for your credit card, and shipping address ready when you call.

To help process your order as quickly as possible, MacWAREHOUSE uses the latest caller recognition phone technology. If you're already a customer and we have your phone number in our database, our computers will instantly recognize your incoming call by the phone number. If you prefer we not use this for your account, please tell your MacWAREHOUSE operator.

We aim to provide you with the latest information about new products and new versions. Certain products are announced by the manufacturer and included in the catalog even though they are not shipping at press time. If an item is not yet available, we will do our best to give you the anticipated delivery date when you call to place an order. Anticipated delivery dates are based on information supplied to us by the manufacturer and are subject to change. If you choose to place an order, your credit card will not be charged until the item is shipped.

U.S. Orders: 1-800-255-6227

Canadian Orders: 1-800-325-3166

International Orders: 1-908-370-4779

Internet: http://www.warehouse.com

Fax Orders. You may find the order form bound into this catalog helpful in preparing your fax order.

U.S. Fax Orders: 1-908-905-9279

International Fax Orders: 1-908-905-1135

Upgrades/Trade-ups. Most upgrades require some form of proof of purchase, which varies by publisher and type of upgrade. Please call for details.

Payment Methods. We accept the following major credit cards: Visa, MasterCard, Discover Card/NOVUS, AmEx. Your credit card will not be charged until each item is shipped (no surcharge). If you would rather order by mail using check or money order, please use the order form enclosed for your convenience. CT, IL, NJ and OH residents add applicable sales tax. Policies, item availability and prices are subject to change without notice. The price in effect when we receive your order will be the price that you are charged. We are not responsible for any typographical errors in this catalog.

Important Note. Please remember to back up all of your data before installing any new hardware, software or peripherals; we are not responsible for any lost data.

Shipping Charges & Delivery. ***Overnight delivery just $3.00 per order up to 5 pounds.*** For all orders over 5 pounds, shipping is $1.25 per pound or fraction thereof. (Example: shipping for a 6 pound order is $7.50). UPS Ground service available at current UPS rates plus $2.95 handling charge per order (except C.O.D.). Orders for "in-stock" items placed up until 12:00 midnight (E) (weekdays) ship same day for fast, dependable, overnight delivery (barring system failure, etc.). Some areas require an extra day. UPS orders for "in-stock" items placed by 3:00pm (E) (weekdays) ship same day. We anticipate being able to ship "out-of-stock" items within 30 days. We use Airborne Express, unless UPS Ground offers overnight delivery to your area. Saturday delivery available in most areas at no extra charge. If you require Saturday delivery, please specify that during the ordering process. All U.S. shipments are insured at no extra charge. C.O.D. orders are shipped UPS Ground, or UPS Blue Label if you are more than two days delivery from us. C.O.D. charge is $10.00 plus current UPS rates. C.O.D. payments must be cash or certified check. Alaska, Hawaii, foreign, and APO-FPO customers please ask for shipping details. Certain products are not exportable outside of the U.S.

Express Customer Service: 1-800-925-6227. To inquire about your order call Monday-Friday 9:00am-12:00 Midnight(E) and Saturday 12:00 Noon-5:00 pm.

Get the Apple Business Lease Advantage!

WHY LEASE?
You don't need a down payment. Leasing gives you 100% financing for your entire system—from hardware to software. And your monthly payment can be as low as $50 per month!
Best of all, as your business grows or technology changes, you can add equipment to your lease or trade up to an entire new system!
You can get approved for credit in as little as four hours.
Call today for more leasing information.

HOW IT WORKS...
All it takes is six simple steps!
1. Call MacWAREHOUSE today and ask for details.
2. Fill out a short one-page Apple Commercial Credit application right on the phone.
3. In most cases, a credit decision will be made within 4 hours.
4. Once approved by Apple Commercial Credit, a lease agreement will be faxed to you.
5. Sign the lease agreement and fax it back.
6. We'll ship your order out right away!

Apple Commercial Credit is administered by Dana Commercial Credit Corporation. The Apple Business Lease is available for Business customers only and is based on approved credit. Payments are based on a 36 month, full payout lease with a $1.00 (One Dollar) purchase option.

30-DAY Guarantee Against Defects

All items we sell come with the MacWAREHOUSE 30-day Guarantee Against Defects. If your product is defective in any way, all you have to do is call our Customer Service Department for a Return Authorization Number. Defective software will be replaced upon receipt of the defective product. Defective hardware will be replaced or repaired at our discretion. In order to speed repair or replacement of certain products, we have made special arrangements for our customers to deal directly with the manufacturer. These products will be identified when you call to get your Return Authorization Number. MacWAREHOUSE, of course, stands behind our Guarantee and, if you have any questions regarding our arrangements with the manufacturer, please call our Customer Service Department at 1-800-925-6227.

In order to speed repair or replacement of defective Apple hardware products, we have made special arrangements for our customers to call Apple Computer, Inc. directly at 1-800-SOS-APPL. If you have any questions regarding our arrangements with Apple, please call our Customer Service Department at 1-800-925-6227. Apple products are available for sale to individual and corporate customers only. They are not available for sale to any public or private non-profit educational institution.

30 DAY Money Back GUARANTEE

Many of our products come with a 30-Day Money Back Guarantee. If, for any reason, you are not completely satisfied with your purchase of any of these items, call our Customer Service Department at 1-800-925-6227 for a Return Authorization Number and a full refund of the original purchase price of the item, excluding shipping and handling charges. Ask our operator at the time of ordering if the product is covered by the Money Back Guarantee. You must return the undamaged product at your expense, including all its packaging and documentation and the blank warranty card if applicable. Apple hardware products do not come with a 30-day Money Back Guarantee.

Place Your Orders On-line!

ORDER OUR FULL LINE OF MAC PRODUCTS ON THE WEB!

http://www.warehouse.com

- *Place your order on-line by 11:00 pm (E) and get it the next day!*
- *Download hundreds of share-ware and demo titles absolutely FREE!*
- *Get the latest information on our newest products!*

Get FREE* product info right from your fax!

Thanks to our fully automated FaxFACTS system, you can obtain information about our products instantly, any time of day or night!

Here's how FaxFACTS works:

1) Call (203)854-5300 from your fax machine's phone.
2) Follow the computer's voice instructions. When asked, enter a FaxFACTS number. (FaxFACTS numbers are 4-digit codes that appear throughout the catalog beneath the product descriptions.)
3) Once your request is complete, press the send/start button on your fax machine, then hang up the handset. The FaxFACTS info you requested will immediately transmit.

Note: To retrieve a list of available documents, use the FaxFACTS code *8888*.

To report an error in the FaxFACTS system, call 1-800-648-1922.

New! Version

Upgrade to NEW

Includes New Director 6 and

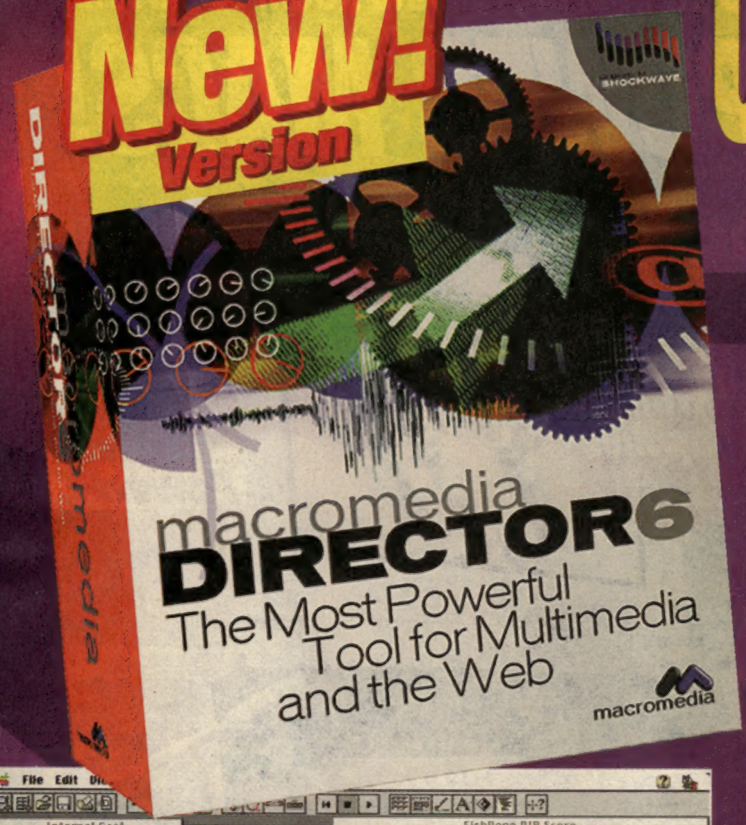
Macromedia Director 6

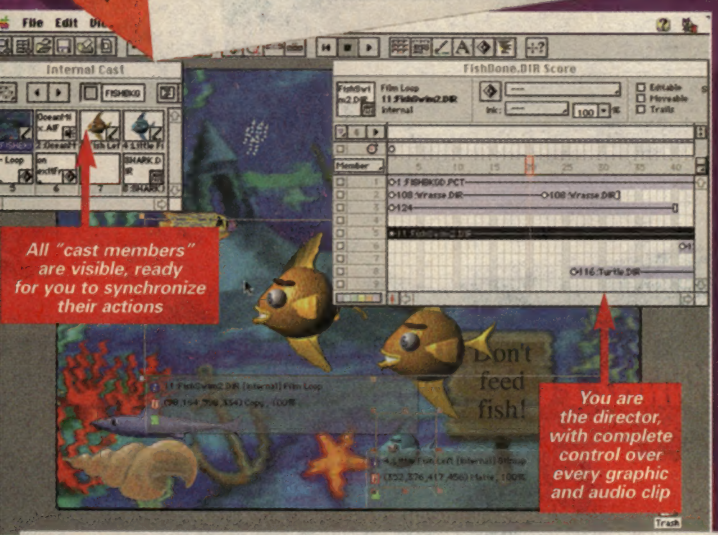
New Director 6 is the most powerful authoring tool for multimedia and the Internet. Its new drag and drop interface helps you create stunning multimedia presentations by easily importing and integrating 2D and 3D graphics, animation, sound, and digital video!

Includes Shockwave for Director!

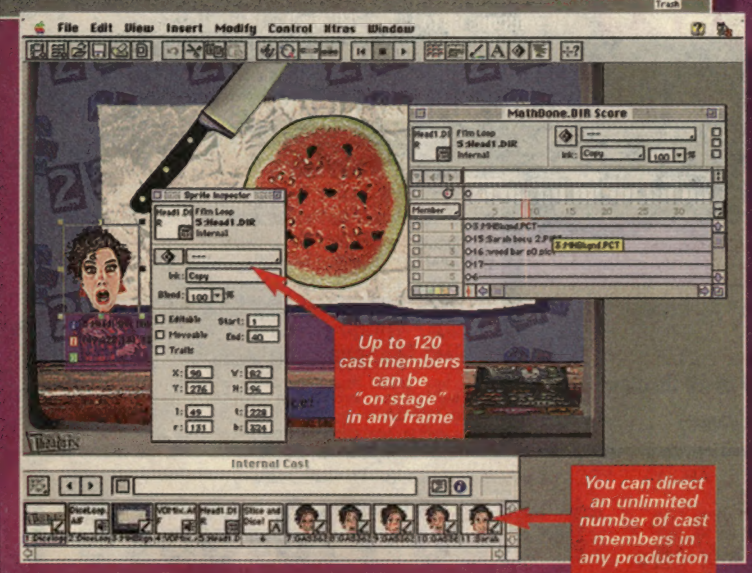
Use Shockwave for Director 6 to create high-quality multimedia productions with CD-quality streaming audio. Or stream, large fully interactive movies on the Web without having to wait for the entire file to download — even over small bandwidth connections!

MTV, CNN, USA Today, and many more use Macromedia Shockwave to add the impact of multimedia to their Web pages! Plug in Shockwave when you're ready to rock the Web with streaming audio and compression ratios up to 176:1!





All "cast members" are visible, ready for you to synchronize their actions
You are the director, with complete control over every graphic and audio clip



10 Reasons You'll Want NEW Director 6!

- ***Drag and Drop Interactivity*** — new object-based interface delivers drag-and-drop convenience
- ***More Action*** — now up to 120 "sprites" (graphic elements) can be "on Stage" in a frame
- ***Easier Scripting*** — choose from over 30 pre-defined behaviors for your sprites
- ***Scriptless Authoring*** — create interactivity with the new button editor behavior inspector
- ***Quick Control*** — modify sprite properties in overlay mode, without opening the "Score"
- ***Easier Animation*** — auto-tweening fills in movement between keyframes
- ***Multiple Views*** — zooming and multiple views allows an overall view of your project while also zooming in on details
- ***Precise Media Synchronization*** — sync sound to any event or animation
- ***Launch and Edit All Media Files*** — just double-click to launch any editor for media incorporated into Director
- ***Hybrid CD/Internet*** — live media contents can now be continually updated and managed from any server!

Director 6 Multimedia Studio

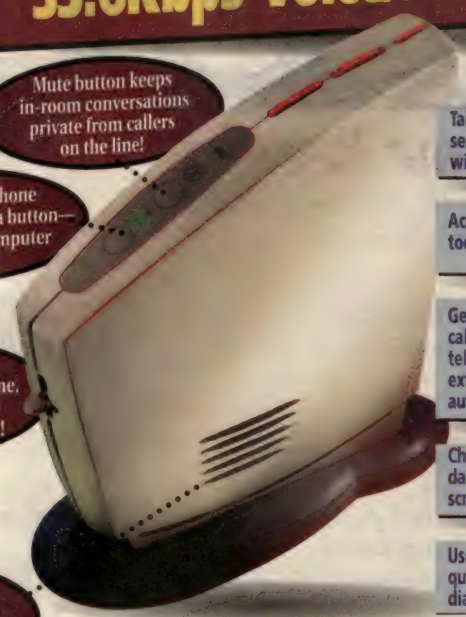
TelePort Speakerphone Edition 33.6Kbps Voice/Fax/Modem



Mute button keeps in-room conversations private from callers on the line!
Answer the phone with the touch of a button—even if your computer is off!
Quickly set the volume you want for speaker-phone, fax, and data calls with convenient slide control!
Work at your Mac and have crystal clear, hands-free communication at the same time!

- Talk to the same person you're sending files to and sharing screens with—on a single phone line!
- Access the Internet at 33.6Kbps—today's fastest standard!
- Get privacy while on a speakerphone call by picking up the handset of any telephone on the same line—even an extension in another room. The modem automatically releases the line!
- Check the modem operations and data throughput rates right on your screen from any application!
- Use the Centralized Call Center for quick access to voice mail, on-screen dialing, speed dial lists, and Caller ID!

The TelePort Speakerphone Edition gives you a state-of-the-art 33.6Kbps voice/fax/modem plus a full duplex speakerphone! With its seamlessly integrated hardware and software, you'll have everything you need to automate your voice, fax and data communications!

This Speakerphone Edition includes:

- ✓ TelePort 33.6Kbps Voice/Fax/Modem
- ✓ NETCOMplete Internet Access
- ✓ Netscape Navigator Web Browser
- ✓ Built-in Speaker and Microphone
- ✓ Award-winning GlobalFax Software

Plus, you get loads of advanced features, including a Centralized Call Center, On-screen Status, Simultaneous Voice and Data Capability, Toll-Saver Feature, Call Sensing, Call Screening, Remote Message Retrieval, and much more!

§ Price reflects manufacturer's mail-in rebate on Zip Drive. Price before rebate is $319.95. See rebate coupon for complete details. Limit 10 coupons per address. Rebate expires 6/30/97.

- ✔ **Ultra-compact for Easy Transport!**
- ✔ **Backs Up Data Quickly and Easily!**
- ✔ **Includes Your First 100MB Zip Disk!**

Iomega® Zip™ Drive's small 3.5" removable disks are great for transporting, and downloading large files. Use them to ship desktop publishing documents to your service bureau, carry multimedia presentations to business conferences, store backup files off site, or to download large files off the Internet.

Instant access to your data!

Unlike other media storage, Iomega Zip Drive removable disks let you access your data instantly — just load the disk and double click! It's that easy! The drive features a transfer rate up to 1.4MB per second and a seek time of 29 ms.

Take it on the road!

The Zip Drive is compact and weighs only about one pound, so it's easy to carry in your bag or briefcase. Take your work home or use Zip Drive as a companion to your PowerBook!

Takes up little desk space!
zip Tools
Includes Zip Tools™, a collection of Zip utilities and shareware!
Sits vertically or horizontally!

The One Drive For All Your Stuff!

NEW! Mac™ OS 7.6 with Apple Internet Connection Kit!*

Mac OS 7.6

UPGRADE FOR ONLY $69.95!

One-click Internet Access

New "Cyberdog" provides a unified launch pad to the Web, e-mail, newsgroups, file sharing, and for remote log-on!

Faster Printing

Laserwriter 8.4 dramatically increases printing speed!

Exciting Multimedia Capabilities

QuickTime 2.5, QuickDraw 3D, and Apple's PlainTalk Technology bring the Web to life! Better virtual memory plays multimedia titles faster, especially on low-RAM systems!

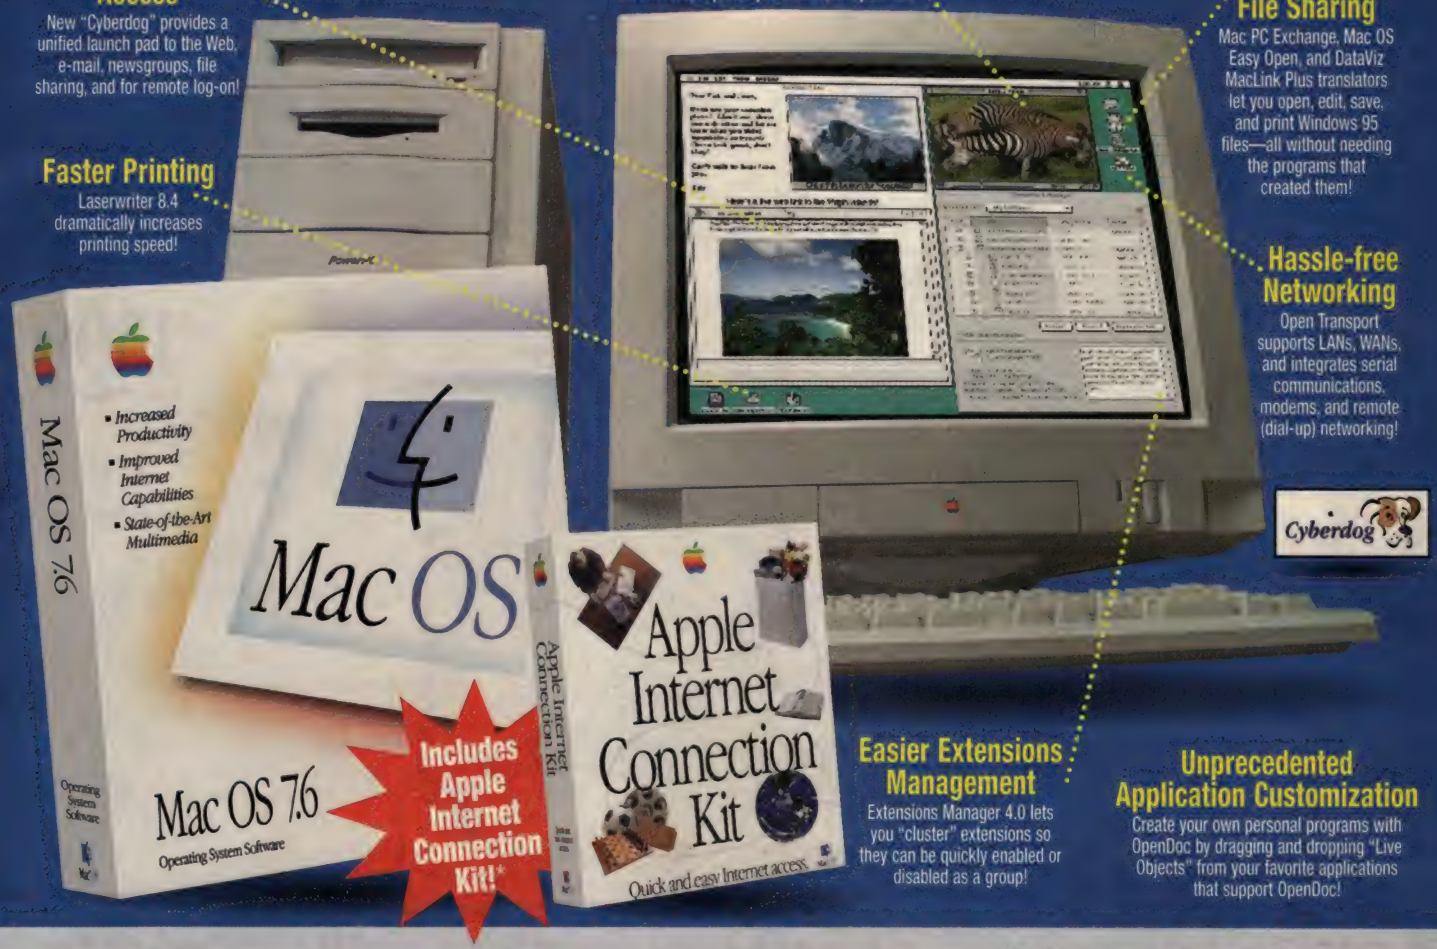
Quick Cross-Platform File Sharing

Mac PC Exchange, Mac OS Easy Open, and DataViz MacLink Plus translators let you open, edit, save, and print Windows 95 files—all without needing the programs that created them!

Hassle-free Networking

Open Transport supports LANs, WANs, and integrates serial communications, modems, and remote (dial-up) networking!

Cyberdog



Easier Extensions Management

Extensions Manager 4.0 lets you "cluster" extensions so they can be quickly enabled or disabled as a group!

Unprecedented Application Customization

Create your own personal programs with OpenDoc by dragging and dropping "Live Objects" from your favorite applications that support OpenDoc!

A New Level of Connectivity!

"Cyberdog" — your new faithful friend — provides a unified launch pad to the Web, e-mail, newsgroups, file sharing, gopher-space, and for remote log-on. (Cyberdog will bring you everything but your slippers.) Use it to save and launch URLs directly from the Finder and embed live Web links directly in your documents.

You'll Be on the Web in Minutes!

Now Includes Netscape Navigator 3.0!

The Apple Internet Connection Kit* is included at no extra charge — comes complete with Netscape Navigator 3.0 and all the software you'll need for quick, easy, and direct access to the Internet: Apple Internet Dialer which helps you sign up with an Internet service provider in minutes, PLUS Claris Emailer Lite, Adobe Acrobat Reader 2.1, QuickTime VR Player, NewsWatch, Fetch, NCSA Telnet, OnBase Dragnet, Macromedia Shockwave, and Farallon look @ Me.

Create the Programs You Want!

The new Mac OS 7.6 has another treat for you: as OpenDoc applications become available, you'll be able to combine your favorite functions — spelling checker, text editor, database component, on-line network, charting, multimedia service component, you name it — into your own customized programs!

Mac OS 7.6 brings you the flexibility you've always wanted — order yours today!

Requires: 32-bit clean 68030, 68040, or PowerPC; Open Doc, Cyberdog, and Laserwriter 8.4 functions require PowerPC.

Apple Macintosh Operating System 7.6 Upgrade with Apple Internet Connection Kit
UPG 0605 (CD-ROM) **$69.95***

Iomega Jaz

1.0GB OF STORAGE ON A SINGLE 3.5" CARTRIDGE!

NEW!

Jaz Drive Deluxe Kit!

You get:

- ✓ Jaz Drive!
- ✓ Four 1GB Cartridges!*
- ✓ Deluxe Jaz Carrying Case!

*Jaz utility software included on your first cartridge.

All for $799 Ask for Item # BND 1647

Convenient, unlimited storage for all your files!

The Iomega® Jaz™ drive and cartridges are the ideal solution for storing, transporting and playing large files and multimedia applications. Pack up to 1.0GB on each cartridge and when you've filled one, just pop in another—there's no limit to the number of cartridges you can use.

Faster than most hard drives!

The Jaz drive's quick access time and rapid transfer rates make moving files around quick and easy. You can transfer data at a maximum speed of 6.6MB per second with an access time of 17 milliseconds. It's fast and powerful enough to handle even the most demanding usages, including full-screen, full-motion video.

Weighs only two pounds!

These compact removable drives make it easy to transport data anywhere—they weigh under two pounds and use 3.5" cartridges.

Easy to install!

Quick and easy setup is assured by simple external connections and automated software installation. Simply plug the Jaz drive into a SCSI port and you're up and running!

Buy five Jaz cartridges for only $499 and get a FREE Deluxe Jaz Carrying Case!

FREE! Ask for Item # BND 1648

1.0GB Cartridges as low as $89.95

The software included with the Jaz Drive has a cataloging feature that tracks all your files on your cartridges. Existing files on floppy disks, hard drives or any other removable media can be easily consolidated onto Jaz cartridges with a few simple clicks!

Use one Jaz cartridge to:

- Record a 2-hour movie
- Save over 8 hours of CD-quality sound
- Supplement your existing hard disk with expandable storage
- Perform non-linear editing on broadcast-quality video for commercial, special effects sequences and animations
- Develop and master CD-ROM applications
- Transfer huge graphics files to service bureaus and printers
- Back up your entire system on one disk quickly
- Collect hundreds of color photos in your own digital photo album

Drives

AS LOW AS $399.95

NEW!

Internal Jaz Drive

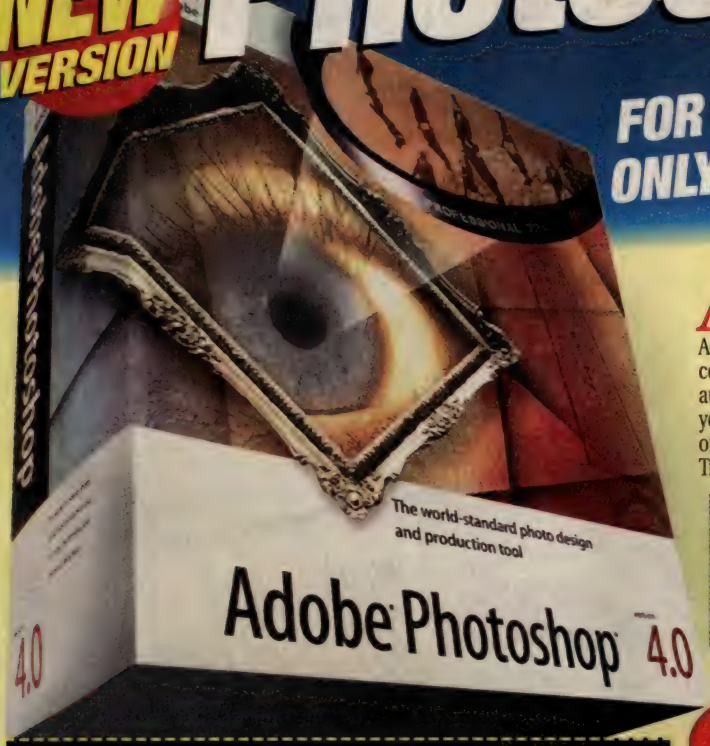
UPGRADE TO ADOBE Photoshop 4.0

NEW VERSION

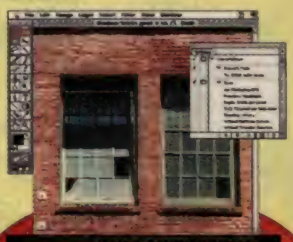
FOR ONLY $149.95!

Adobe



Adobe Photoshop 4.0 is the world-standard photo design and production tool for images used in print, multimedia, and on the Web. Extensive new capabilities improve productivity and allow even greater creativity. Adjustment Layers encourage nondestructive experimentation with color correction and effects. The new Actions palette lets you record commands for automated editing and batch processing of files. And, with the new Navigator, you can zoom instantly to specific areas within large images! Explore a wealth of new creative effects, including multicolor gradients, an interactive Free Transform feature, 48 new special effects filters, and more!

NEW ADJUSTMENT LAYERS!
Experiment with color correction and effects — these layers work like nondestructive masks!



NEW ACTIONS PALETTE!
Record a sequence of commands as an Action List, then automatically "play" the list on part of an image, an entire image, or a folder of images!

HELD OVER!

Buy Photoshop 4.0 now, and get Fractal Design Painter 4 for only $99.95!

SAVE $280!†

Fractal Design Painter works hand-in-hand with Photoshop to simulate the tools and textures of traditional artist's materials — from crayons to calligraphy, and oils to airbrushes. Makes your computer an artist's studio!

AAP 0369 (Macintosh) SP2754 (Windows) $99.95

Publisher: *Fractal Design*

† Savings based on regular MacWAREHOUSE prices in effect at time catalog printing. Painter 4 shipped in promotional packaging on CD-ROM. Price good only with purchase of Photoshop 4.0 from MacWAREHOUSE. Printouts must appear on same invoice. Painter 4 with Photoshop purchase not eligible for FREE upgrade promotion. Hurry – offer expires 4/30/97 or while promotional supplies last!

NEW NAVIGATOR FEATURE!
Zoom instantly to specific areas within a large image!

NEW GUIDES AND GRIDS!
You get precise control with definable guides and grids!

GREAT NEW ADOBE PHOTOSHOP 4.0 FEATURES!

- **NEW ADJUSTMENT LAYERS** provide color correction without permanently changing the underlying image.
- **NEW ACTIONS PALETTE** lets you record editing steps as a recallable sequence, so you can automate common tasks!
- **FREE TRANSFORM** scales, rotates, skews, and changes an image in a single step.
- **GUIDES AND GRIDS** for precise horizontal and vertical control. Fully user-definable.
- **IMPROVED USABILITY** provides a consistent cross-application look and feel. You'll find the same, clean work environment in other Adobe applications.
- **SPEED IMPROVEMENTS** make it faster to scroll, zoom, and move!
- **48 NEW EFFECTS FILTERS** give you a wider spectrum of creative opportunities.
- **NEW NAVIGATOR PALETTE** makes it easy to move around quickly in a magnified image! Continuous Zoom levels from 0.13% all the way up to 1600%!
- **NEW DIGITAL WATERMARKING** helps protect the copyright on your images!
- **ENHANCED SUPPORT** for the following new Web file formats:
  - *Portable Network Graphics (PNG)*
  - *Progressive JPEG*
  - *Portable Document Format (PDF)*

Adobe PageMaker 6.5

UPGRADE TODAY FOR ONLY $99.95!

New Adobe PageMaker 6.5 bridges the gap between printed and on-line pages. Get the fully integrated tools you need to author sophisticated publications for the Internet. Simply create your pages and export them to HTML format or Adobe Portable Document Format (PDF). Expand your design possibilities with breakthrough features — new text and graphic frames, automatic reformatting of publications, and document-wide layers. Use a new interface that looks and feels even more like those of Adobe Photoshop and Adobe Illustrator. You can even directly import Illustrator designs. PageMaker 6.5 makes it easy for you to produce sophisticated pages in any medium!

10 REASONS WHY YOU'LL WANT NEW PAGEMAKER 6.5...

1. **HTML File Import and Export**
   Convert PageMaker files to HTML for instant publishing on the World Wide Web. Your information doesn't need to be reimported. It's Internet ready!
2. **PDF File Creation**
   Create Acrobat PDF files from within PageMaker! You won't need to switch to another program. It's the fastest way to publish your pages on the World Wide Web!
3. **Hyperlink Capabilities**
   Drag-and-drop Hyperlinks and use the new Hyperlink palette for faster creation of on-line pages!
4. **Text & Graphic Frames**
   Use frames separately or together with the free-form layout approach that made PageMaker famous!
5. **Document-wide Layers**
   Streamline the management of multiple version documents!
6. **Automatic Page Reformatting**
   Graphics are automatically adjusted and text immediately reflows so you can easily repurpose your pages for print or on-line delivery!
7. **Native Import of Illustrator Files**
   Adobe Illustrator designs can be placed directly into PageMaker without having to export them as EPS files.
8. **Integrated Design Tools**
   New PageMaker 6.5 shares a similar interface and work environment with Photoshop, Illustrator and even PageMaker 6.5 for Windows!
9. **Overlapping Tabbed Palettes**
   Efficiency you'll love — click on a tab to get all the tools you want!
10. **Faster Hand-off to Your Service Bureau**
    "Save for Service Provider" plug-in automatically gathers all the files needed to output your pages.

▲ New text and graphic frames give you precise creative control. (Quark users will appreciate this addition.) Plus, PageMaker's famous "free-form" layout capabilities are still included.

▲ Use document-wide layers to write annotations, build multiple-language versions and more! Customize your workspace with tabbed palettes, and put your tools at your fingertips!

FileMaker Pro 3.0

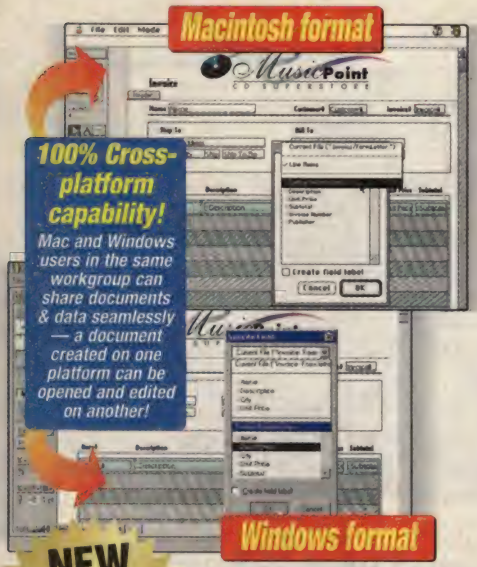
Create Relational Databases for Mac *and* Windows Users!

SAVE $100
SPECIAL OFFER
for Microsoft Office, Word, Excel, Works, and ClarisWorks owners!

Trade-Up for only $99.95!*

FileMaker Pro 3.0 is Easy to Use and Learn!

FileMaker Pro 3.0 is a comprehensive data management program powerful enough to organize and use all of your information. 40 pre-set templates are included for invoicing, mailing, contact management, lead-tracking, inventories, and more — you can begin building your database in just minutes! FileMaker Pro 3.0 also speeds routine tasks with customizable menus and on-screen buttons for one-touch activation of menu commands. You can even automate tasks by creating "macros" with ScriptMaker — anything from loops and conditional branching, to custom messages, and more! FileMaker Pro also saves time by automatically converting information imported from many popular spreadsheets, word processors, and other database programs. And you'll get fast answers to your questions with a built-in interactive tour and easy-to-use help menu!



100% Cross-platform capability!
Mac and Windows users in the same workgroup can share documents & data seamlessly — a document created on one platform can be opened and edited on another!

More Than Just a Database!
Get the Most out of Your Information with FileMaker Pro's 3.0 Integrated Capabilities!

Word Processing
Mail-merge customized letters. Sophisticated formatting commands help you create impressive correspondence

Archiving
Create film, video, music, art, and photo libraries

Data Tracking
Assemble customer, student, personnel, or inventory lists, including spending patterns, hours worked, or costs — even ID photos. Generate mailing lists and print out labels in dozens of Avery formats. Conduct studies and analysis

Money Management
Control budgets, receipts, checking, expense reports, invoicing, and financial reporting — even generate pricing quotations, including "what if" variables

Page Make-up
Automatically create certificates, awards, and identification badges

Contact Management
Build your contact list — use it for automatic phone dialing

NEW Windows NT version available

Attention Network Database Users! FileMaker Pro Server 3.0

FileMaker Pro Server 3.0 accelerates multi-user FileMaker operations by off-loading processor-intensive tasks such as indexing, sorting, and summary calculations to your network server. Reduced network traffic means everyone works faster and more efficiently.

Powerful Server Features:

- Relational database engine
- Each server can support up to 100 concurrent licensed Mac and Windows FileMaker Pro users
- Customized messaging to any connected user
- Opens and closes multiple-file databases in groups instead of file by file
- Supports more networks than ever: AppleTalk, IPX/SPX, and new TCP/IP via Open Transport 1.08 or greater
- Improved Usage Gauge to easily view database usage and capacity
- Supports up to 100 open files per server
- Automatic scheduling, backups, and more!

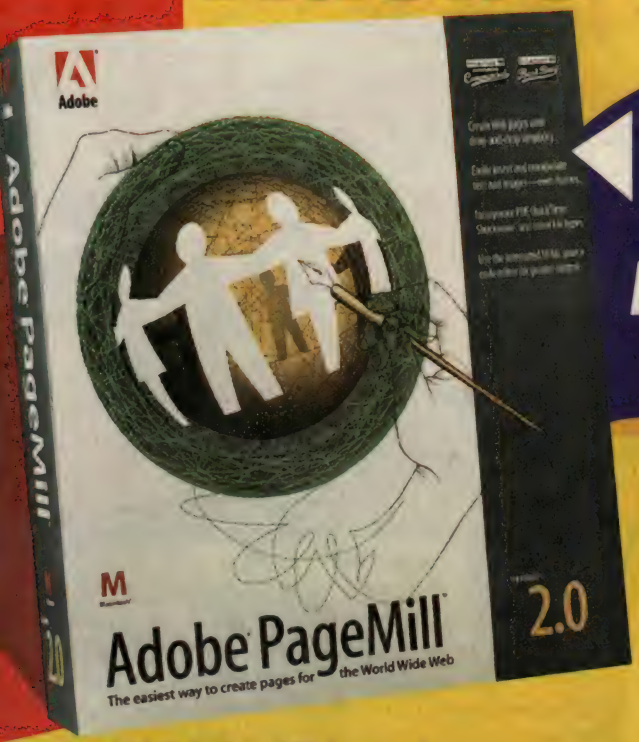
Adobe PageMill 2.0



THE #1 SELLING WEB PAGE DESIGNER FOR THE MAC!

Upgrade for as low as **$49.95!**

Create full-featured Web pages!

Adobe PageMill 2.0 lets you create full-featured Web pages without knowing anything about HTML or URLs. With this powerful new version, building your Web pages is a simple, drag-and-drop operation! Just type in text or import text and images from any standard office application, and PageMill automatically converts them to the appropriate format. Then, resize your images and align your text any way you want. What you see is truly what you get! Whether you're building an entire corporate Web site or developing individual home pages, PageMill 2.0 will make it easier than ever before!

Exciting New Features!

- **WYSIWYG Tables & Frames** — Lay out complex pages with multiple text columns, navigation tools, icon bars, and banners!
- **Multimedia Plug-in Support** — Add PDF images, QuickTime® movies, ShockWave files—even sound—into your Web pages!
- **Animated GIFs** — Animate logos, dingbats, and more—and there's no need for plug-ins on the client side!
- **Improved Font Controls** — Add leading caps or scale and color characters individually instead of whole paragraphs!
- **Integrated Viewing and Editing of Source HTML** — Switch to HTML source viewing and editing mode with industry-standard color coding support.
- **Text flow around images** — Make better use of space on your Web pages!

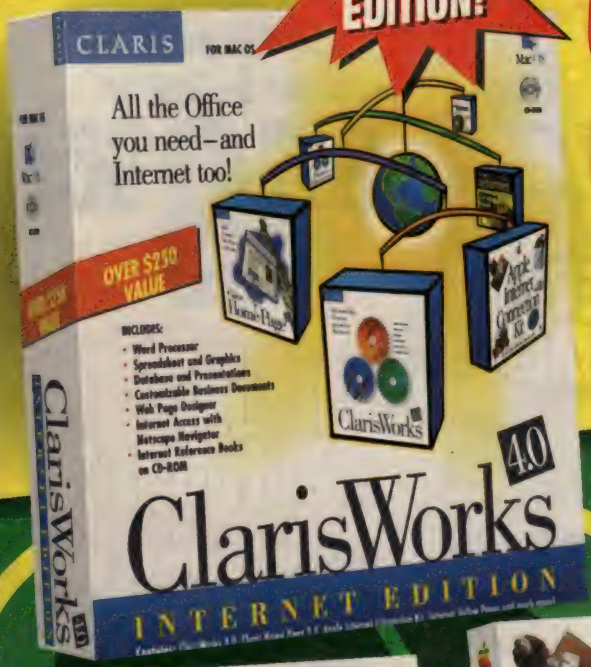
NEW INTERNET EDITION!

ClarisWorks 4.0– Claris Home Page–and Apple Internet Connection Kit

ALL FOR ONLY $99.95

SAVE OVER $140*

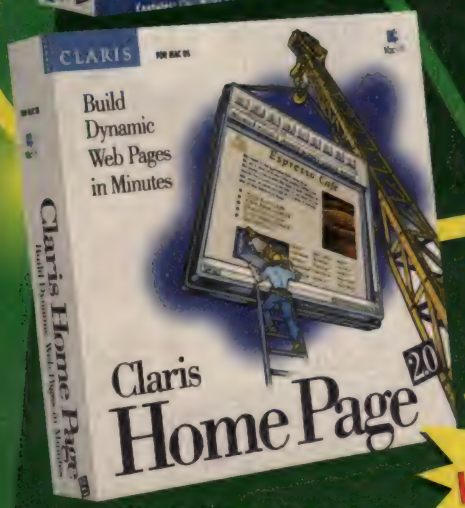


Complete Office and World Wide Web Integration

New ClarisWorks 4.0 Internet Edition brings you a completely integrated suite of office productivity programs in one box, at one amazing price! This great new edition includes:

- Claris Home Page 2.0 Web Page Designer
- Word Processor
- Spreadsheet and Graphics
- Database and Presentations
- Customizable Business Documents
- Apple Internet Connection Kit, with Netscape Navigator 3.0
- Internet Reference Books on CD-ROM
- Drawing and Painting Tools

Now you can create documents with word processing, spreadsheet, database, chart, presentation, and graphic elements — all together on any page. Dozens of time-saving, customizable business documents, universal stylesheets, and drag-and-drop art libraries make creating professional-looking documents easier than ever. And now, with the Apple Internet Connection Kit 1.2 and Claris Home Page 2.0, you can be on the Web in minutes, exchanging e-mail, and creating your own Web pages. *The ABCs of the Internet* and *Internet World's Internet Yellow Pages* are included on CD-ROM for quick reference.**



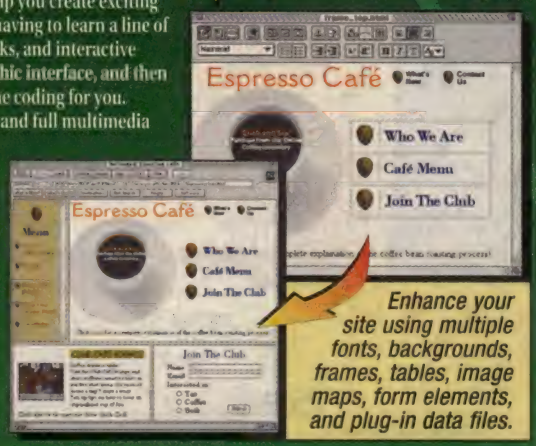
NEW VERSION!

Claris Home Page 2.0

Claris Home Page 2.0 will help you create exciting Web pages in minutes — without having to learn a line of HTML coding. Add multimedia, links, and interactive elements with the easy-to-use graphic interface, and then Home Page will automatically do the coding for you. Includes 25 ready-to-use templates and full multimedia support for QuickTime, Java, Shockwave, and other popular plug-ins. Customize your pages with drag-and-drop elements from a library of pre-formatted frames, forms, and buttons. Build tables automatically with tabbed text. Experienced users can also directly edit HTML. **PLUS!** Get 6 months of Web Hosting Service FREE, courtesy of HoloNet — see coupon in box for more details. **Also includes 500 Web Explosion clipart images, FREE!**

Apple Internet Connection Kit 1.2

Apple Internet Connection Kit 1.2 is your quick and easy on-ramp to the Web. Includes Netscape Navigator 3.0, Apple Internet Dialer, Claris Emailer Lite, Fetch, NewsWatcher, NCSA Telnet, QuickTime VR Player, and Adobe Acrobat Reader.



Enhance your site using multiple fonts, backgrounds, frames, tables, image maps, form elements, and plug-in data files.

Astra 600S Color Scanner

Finish your scanning quickly with the Astra 600S—an easy-to-use, single-pass scanner that delivers superior 30-bit color. Kodak Color Management System helps ensure consistent colors from scanning to page make-up to printing — image after image. UMAX's VistaScan software provides automatic one-step control settings, auto-density control to pre-set optimal brightness, sharpen, blur, unsharp masks, tonal curve control, color balance, and highlight and shadow adjustments. A welcome addition is UMAX's Copy Utility which turns your printer into a photocopier machine: scan any document up to 8.5" x 14" with the Astra 600S, and then output as many copies from your printer as you need!

Features include:
- Superior 30-bit color quality
- 300 x 600 dpi optical resolution
- 4800 dpi resolution interpolated
- 256 gray levels
- Scans large 8.5" x 14" documents
- Kodak Color Management System for precise color reproduction
- VistaScan intelligent scan driver provides automatic control settings — will even descreen halftone images
- Turns your printer into a photocopier with UMAX Copy Utility!

BONUS! Includes: Presto! PageManager with OCR on CD-ROM and UMAX Copy Utility!

Get SAM 4.5 & StuffIt Deluxe 4.0

Together for only $69.95* after $20 rebate

A Perfect Pair for the Internet!!

SAM 4.5 protects your system from Internet infection, and StuffIt Deluxe 4.0 saves you time and money by compressing files for fast uploading.

Maximum Internet virus protection!

Maximum Internet file compression!

INTERNET INTERACTIVE

SAM 4.5

The world's #1 virus protection software for the Mac now keeps your files safer than ever from viruses hidden in Internet downloads, compressed files, shared files, and e-mail attachments. SAM 4.5's SafeZone acts as a "virtual clean room"— any files you copy or download can be scanned in isolation before you use them! SAM works automatically and continuously, watching for any suspicious disk activity while you work. When it finds a virus, it eliminates it. SAM 4.5 even repairs your infected files so you can open and work with them safely!

SafeZone Internet Protection
Alerts you to viruses in downloaded or copied files and e-mail. Stops distribution of infected files before you open them!

Improved Alerting
Customize your own alert messages!

Scan-on-Open of Shared Documents
A SAM exclusive! Prevents transmission of macro viruses!

Expanded Modem Updates
Includes Auto Update of latest virus definitions! Downloads are FREE!

StuffIt Deluxe 4.0

The industry standard in file compression, it effectively doubles your disk space and can compress files up to 98%. Plus, version 4.0 offers many benefits for Internet users. StuffIt Deluxe compresses files for fast uploading to the Internet — saving time and money — and expands files automatically upon downloading. Now, you can encode/decode PC and UNIX formats to share cross-platform files over the Net. And, improved AppleScript support lets you automate archiving for the Internet or for backups!

Auto Internet Decompression
Expands most compressed files from the Internet automatically!

Share Files Across Platforms
For PC and UNIX formats!

Faster to Use
Drag a file into an archive to StuffIt! Drag a file out to unStuffIt!

Automate Archiving
With AppleScript support.

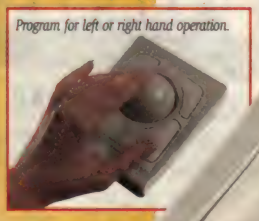
More comfort for your hand! More power at your fingertips!

Kensington Input Devices

Turbo Mouse 5.0

Work faster and smarter!

Put your hand on a Turbo Mouse and you'll feel why Kensington is the leader in innovative trackball design. Fingertip control offers more accurate and precise movement, and a unique four-button design delivers higher performance and convenience. And Kensington's MouseWorks software makes computing easier by placing more of your computer's time-saving capabilities at your immediate command. Glide through your work— substituting tedious and time consuming tasks such as double-clicking or with a single click.



INP 0626..... $99.95

The Turbo Mouse has won more awards than any other Mac Input device!

Editor's Pick "Best Input Device" *Home Office Computing*, 1995

Macworld, World Class Award '87, '88, '89, '90, '92, '94

4-Mice, *MacUser*, 1994

Editor's Choice *MacWorld* May, 1996

Thinking Mouse

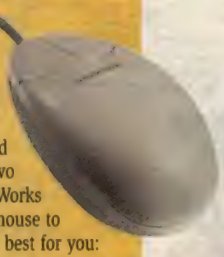
A mouse that thinks along with you!

Unique four-button design and Kensington's MouseWorks software makes a mouse that works just as hard as you do! Open files and directories–even insert a block of text with a single click.

May 1996

INP 0441 ..... $69.95

Kensington Mouse



Are you missing a button?

One size fits all: left-handed or right, short fingers or long. Rounded edges and inclined sides fit the natural shape of your hand. Two easy-to-click oversized buttons and MouseWorks software allows you to quickly train your mouse to perform the time-saving features that work best for you: automatic double-click, drag, open files, and more...you decide!

INP 0546 ..... $59.95

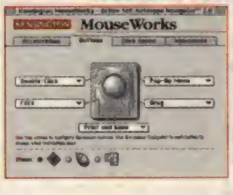
Mouse•in•a•Box

Plug it in – Get back to business!

No fancy name, no fancy instructions. Just take it out of the box and get back to business. Mouse•in•a•Box incorporates all of Kensington's award-winning design in a sleek one-button mouse. No software to install. Works right out of the box – what could be simpler?

INP 0629..... $39.95

Time Saving MouseWorks Software



The easiest mouse software ever — with shortcuts for Adobe Illustrator, Netscape Navigator, Quicken and more!

Comes with the Turbo Mouse, Orbit, Kensington Mouse and Thinking Mouse.

All Kensington input devices are backed by a 5-Year Warranty.

New!

Orbit™

Innovative fingertip control with extra comfort!

This new and unique hand-hugging shape puts your hand and wrist in a naturally-comfortable position to reduce fatigue. Similar in shape to a mouse, Orbit adds a trackball at the top for comfortable and precise fingertip control. Fits both left and right hands. Two buttons allow for comfortable control. And, the included MouseWorks software automates repetitive tasks, eliminates double-clicking, and much more!

The Cost-Effective Way to Speed Up Your Mac and Triple Your Memory*!

SPEED DOUBLER™ 2 & RAM DOUBLER™ 2

UPGRADE FOR ONLY **$29.95!**† After $25 mail-in upgrade rebate.

Accelerate your Mac's performance!

Speed Doubler 2 makes your Mac even faster than before. Experience faster response accessing files on hard disks and removable drives. Copy files from servers to your desktop Mac up to three times faster*. Non-native applications run twice as fast on your Power Macintosh*.

AWARD-WINNING EXCELLENCE
MacWORLD 2/96 · MacUser 1/96 · MacWEEK 8/95 · MACHOME 11/95

Original Speed Doubler Awards

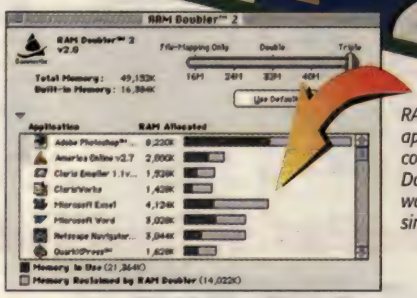
Speed Doubler 2 makes it easy to synchronize files and move more data faster without tying up your computer. Run three copies simultaneously and in the background. Save time by emptying the trash in the background, which is especially useful when deleting megabytes of data. Get into the fast lane and use your license to speed with Speed Doubler 2.

- Run Network Copies up to Three Times as Fast*
- Have Faster Disk Access for Zip Drives, Removable Drives, and Hard Disks
- Run PowerPC Emulation up to Twice as Fast*
- Synchronize Folders and Keep Your Files up to Date
- Copy Files Faster, Run Copies in the Background, and Perform Multiple Copies Simultaneously
- Empty the Trash in the Background

* According to Connectix benchmarks.

FOR ONLY **$54.95!**

Triple Your Mac's Memory!*



RAM Doubler runs all these applications with a 16MB configuration. Without RAM Doubler, these same applications would require 64MB to run simultaneously.

One million satisfied Mac users have made the original award-winning RAM Doubler the standard for Macintosh memory management. This latest version provides up to triple memory, runs even faster than the original* and remains just as easy to use. Order yours today!

AWARD-WINNING EXCELLENCE
MacWORLD MW EDITORS' CHOICE · MacUser · MACHOME 11/96 · MacWEEK 9/96
Original RAM Doubler
RAM Doubler 2

- Don't spend time opening and closing applications all day—keep them running simultaneously and watch your productivity soar.
- The RAM compression in RAM Doubler 2 is up to twice as fast as the original RAM Doubler*.
- Run Power Macintosh native applications with less memory. For example, Excel 5 uses 13MB of memory without RAM Doubler 2 and requires only 4MB with RAM Doubler 2.
- RAM Doubler 2 is compatible with all Macintosh hardware and software, including entertainment titles.
- You don't worry about limited physical memory slots and expansion capabilities—RAM Doubler 2 doesn't rely on hardware to deliver a full tripling of application memory.

* According to Connectix benchmarks.

Word Processing

Corel® WordPerfect® 3.5

For a fast, powerful and easy-to-use word processor, try Corel® WordPerfect® 3.5! You'll be able to take advantage of some of the most comprehensive tools available for communicating information—from writing to editing. And now WordPerfect will even help with proofreading!

Corel WordPerfect 3.5 is an ideal word-processing solution for virtually any office. It provides powerful graphics and page layout features so you can create dynamic marketing presentations, business reports, advertisements, catalogs, books, and even pages for the Internet. The new Internet publishing tools help you create Web documents and then convert them to HTML without leaving Corel WordPerfect 3.5. Another new feature of Corel WordPerfect 3.5 is the advanced MacinTalk™ technology. Simply select a document or section of text and MacinTalk can read it back to you for proofreading. Other features include support for tables and multiple format columns, spelling and grammar checking on the fly, Drawing and Equation Editors, and the new Make It Fit™ feature that adjusts margins, font size, line height, and leading to fit text to a specified size. And all of these great features come in an exceptionally intuitive interface.

Requires: System 7 or higher; Mac or PowerMac; 2MB available drive space for Mac ,5MB for PowerMac; 6MB hard disk space for minimum install, 16MB for full install.

"An ingenious and multi-level guide. This software is way ahead of any other writing tool I know."
Jeff Arch- Screenwriter, *Sleepless in Seattle*

"I'm not exaggerating: Blockbuster revolutionized how I work. It's the simplest way I've ever found to develop and organize notes on structure, character and theme."
Laurence Dworet- Screenwriter, *Outbreak* (who wrote *Outbreak* from scratch using Blockbuster)

Truby's Blockbuster 2.0

Get the ultimate software for creating great screenplays! John Truby has coached thousands of screenwriters around the world, including the writers of hit films like *Outbreak, Back to School, Nightmare on Elm Street, Kiss of the Spider Woman,* and *Sleepless in Seattle.* Can you afford not to know what they know?

Starting with your movie idea, Blockbuster coaches you through the entire process of screenwriting, from focusing your idea to finishing your final, polished draft. No other software program takes you through the entire process.

Blockbuster's powerful tools lead you step-by-step to write a great script:

- **Premise Developer** adds depth and emotional power to your idea.
- **Central Casting** builds complex, dimensional characters.
- **7 Keys™** forms the story into a satisfying structure.
- **22 Steps™** weaves a surprising, logical plot.
- **First Draft** lets you write your project with expert help on-line.
- **Dialogue Doctor™** creates exciting scenes with dynamic dialogue.
- **Story Doctor™** fixes problems to create a final, polished draft.
- **On-Line Story Coach™** improves your writing as you work!

When you buy Blockbuster, you also get:

- **Truby's Famous Story Structure Class** on-line.
- **16 On-line Movie Examples** including *Jurassic Park, Beverly Hills Cop, The Godfather,* and *Star Wars* so you can see how other great writers solved your story problems.

Requires: 4MB RAM; 13MB hard disk space; System 7.0 or later.

Adobe FrameMaker 5

Adobe FrameMaker 5 makes it easy to publish even the most complex documents–from books, manuals and catalogs to on-line product specifications.

WYSIWYG Editing

New FrameMaker 5 speeds up the publishing process by doing the work for you. Choose from more than 30 professionally designed templates, or design your own. To enhance your document, take advantage of sophisticated features like easily formatted side heads, column-straddling paragraphs and automatically numbered sections. Plus, with WYSIWYG editing, there's no need to waste time printing out files to see what they really look like.

Works on Macintosh, Windows and UNIX Systems!

FrameMaker's unparalleled cross-platform capabilities make your workgroup more productive. It works the same on Macintosh, Windows and UNIX systems, so you can share files with everyone. And you can use FrameMaker's powerful hypertext features to distribute your documents on-line–in the Adobe Portable Document Format, on CD-ROM, or in HTML on the Web.

Adobe

Upgrade to FrameMaker 5 for only $199.95

Create great-looking materials for your classroom!

Classroom Publisher 2.0

Designed specifically for schools and teachers, Classroom Publisher is the easy way to create all your classroom materials. It comes with dozens of ready-to-use documents including lesson plans, awards, calendars, newsletters, banners, memos, cards, forms for grade books, and so much more. In addition, there are record and report forms that address attendance, behavior, deficiency, progress and maintenance issues.

Text, pictures, borders, calendars and other items are placed in blocks. These blocks can be moved (with the mouse) anywhere on the page and are not limited to rigid columns. By reshaping blocks, you can arrange information in ways that are not possible with word processors.

The included library of borders, clip art, icons and more will help you get started. You can even add special touches by rotating or stylizing text. Of course, Classroom Publisher also includes practical features like a spell checker, auto page numbers, date/time insertion, calendar editor and more.

Express yourself and your teaching style with great-looking materials for your classroom … order Classroom Publisher today!

Requires: Mac Plus or higher; 1MB RAM; 3MB hard disk space; System 6.08 or later.

Revolutionary tools for Photoshop!

Chromatica™

- Select objects instantly!
- Change color like a pro in seconds!
- Recolor textures and backgrounds, photos, paintings–even your own artwork.

With Chromatica, you simply drag the ChromaMask™ tool over an object...and you have a mask! No more struggling with the magic wand and lasso tools. No more "dumping" color with a bucket or guessing with color sliders. **ChromaColor™** replaces colors to match the full dynamic range of the original image – with no degradation. For a perfect finish, use the EdgeWizard™ tool for one-step edge-blending, and say goodbye to the "1-pixel feather edge," blur, or smudge forever.

For the first time ever, **ChromaPalette™** lets you use the colors from one image to recolor another image. Transform a texture or background by recoloring it with a palette from nature! Turn an ordinary photograph into an instant masterpiece by applying the palette of a great artist! Create and reuse an unlimited collection of your own palettes or use the 1,000 included palettes.

Requires: 68030 processor or faster; FPU; 1MB RAM; System 7.0 or later; CD-ROM drive.

GIVE YOUR DESIGN AN EXTRA EDGE!™

Make your designs truly unique with these easy to apply edge effects

Photo/Graphic Edges (v3.0) can help enhance the tone and feeling of any image by giving it added dimension and character. With Photo/Graphic Edges you never have to do a square design again! All effects can be resized or shaped to work with any image - regardless of resolution or proportions. You can combine different edge effects between volumes to create your own unique look - you can even add colors to the borders, backgrounds and use the new transparent background feature for merging edges over other objects. Works from within most major layout, illustration and image editing programs. Each volume comes with a full color 8 1/2 x 11 catalog of effects and easy to follow manual. This will be one of the most powerful tools in your design arsenal! Upgrade to the current version of Photo/Graphic Edges 3.0 for $49.95!*

NEW! PHOTO/GRAPHIC EDGES™ 3.0 **Volume I - Traditional Edge Effects --- GRA 1792 - $179.95**
A collection of thousands of traditional types of edge effects including deckled, ripped, semi-transparent, film strips, film frames (2 1/4 & 4 x 5), emulsion transfers and other classic darkroom styled effects. A very classy collection of traditionally styled effects for any type of design project.
NEW! * Upgrade from any previous version of PGE volume I for only $49.95..... UPG 0557

Photo/Graphic Edges 3.0 Volume II - Geometric Edge Effects --- GRA 1791 - $179.95

PAGE/EDGES **Really Cool Edged Design Elements --- GRA 1117 - $179.95** *Call for details
A collection of 1,000 easy to use edged design elements such as borders, headline and type blocks, drop caps, page rags and edged elements for photo, text and page borders. Edges can be colored and scaled up to 200%. Includes over 500 transparent edge effects for seamless merging over other objects.

NEW! TYPO/GRAPHIC EDGES™ **Weather & Roughen Type & Graphics --- GRA 1783 - $99.95**
Ever find yourself staring at a piece of plain type and wishing you could give it a weathered, roughened, grunge or unique look? Typo/Graphic Edges is a cool plug-in that can do just that to logos, clip art & type (does not work with photos). Choose from thousands of looks to make your artwork really stand out. TGE lets you control the edge size, horizontal, vertical effect amounts and the style of any effect. Preview your work before you apply it and rapidly make changes to get just the right look or feel.

Photo/Graphic Edges & Typo/Graphic Edges Supports: Photoshop 3.0+4.0, Illustrator 6, PageMaker 6+6.5, PhotoDeluxe, Canvas 5 and any other applications that supports PhotoShop plug-ins. For PowerPC only.
Page/Edges Supports: Quark XPress & Adobe PageMaker.

▲ DrawingSlate II 4"x5"

MACWORLD MW ★★★★ 6/95

Computer art with a pen!

DrawingSlate II™

DrawingSlate II makes drawing with a computer as easy as using a pen! These versatile graphics tools allow you to combine drawing techniques with your computer's sophisticated storage and revision capabilities. Place a sketch on the tablet's surface and trace, or use your DrawingSlate to create a sketch from scratch, right on your screen! Easily convert graphics into digital information that you can then manipulate with your favorite design software.

DrawingSlate II can be used both as a mouse and a digitizer, eliminating the need for multiple input devices. Frequently used commands can be easily programmed to perform tasks with the click of a pen.

The cordless, pressure-sensitive pen translates the pressure and tilt you apply into varying line widths, shading and color blending. Detail scaling lets you work on the whole image or zoom in on a small area.

All tablets include a FREE Eraser Pen!

Requires: 1MB RAM; 300K hard disk space.

DrawingSlate II 4" x 5"
INP 0596 — $99.95

DrawingSlate II

- Advanced pen technology that simulates drawing or painting
- Lightweight design
- Custom pressure sensitivity
- Area mapping for fast movement through large drawings
- Recordable macros and programmable commands
- Dynamic windowing for switching between software applications
- Rotating drawing area for working in portrait or landscape position
- Fumble-free, pen-point erasing

CalComp

New!

UltraSlate

Create images intuitively with UltraSlate! CalComp's feature-rich graphics tablet and natural-feel pen are perfect for graphic artists.

With UltraSlate's new pop-up hot keys, you can perform frequently used commands with a simple click. UltraSlate offers both mouse and tablet mode. In mouse mode you can pick and point just like you were using your favorite mouse, or choose tablet mode for tracing and drawing. UltraSlate will detect 512 levels of pressure.

The included batteryless, cordless pen features a new programmable eraser button for fumble-free erasing. You no longer have to flip the pen over to lighten, fade, or erase parts of your design. The pen has a natural-feel "tilt" recognition of up to 45 degrees.

Requires: ADB port.

With purchase of PANTONE Solid to Process. While supplies last.

PANTONE Solid to Process Guide with Color Caddy

Stop guessing what PANTONE colors will look like when reproduced in four-color. The PANTONE Solid to Process Guide indicates how each color will look when printed in process by showing the solid color alongside its closest CMYK version. Each color is shown with CMYK values.

As a bonus, you can store the guide right where you need it with the FREE PANTONE Color Caddy! Keep your guide clean with this handy storage holster which can attach to your monitor, desk, or design table.

GRA 2044 ..... **$65.95**

PANTONE

Take control of your colors on the Internet!

PANTONE ColorDrive™ with Web Tools and ColorWeb

PANTONE ColorDrive, the utility that provides color control between applications as well as to the printed page, now enables Web page authors to control colors on the Internet. With the addition of ColorWeb and Web Tools, designers can now specify "Internet safe" colors as well as incorporate color-corrected GIF, JPEG and TIFF images in their Web pages.

MACWORLD EXPO '95 WINNER

Wacom Graphics Tablets

Close the Photoshop gap with the pressure-sensitive feel and performance of a quality Wacom graphics tablet. When you install a Wacom tablet, you'll instantly enable Photoshop's 11 different pressure-sensitive tools that are unavailable with a mouse.

And every Wacom tablet includes the Erasing UltraPen® with DuoSwitch™, which incorporates a built-in eraser that's intuitively found at the end of the pen. Just a slight roll of the thumb activates either button under the rocking DuoSwitch, preventing the bounce and jitter that comes from having to press two individual side buttons. Customize your DuoSwitch to be an option key and never go back to the toolbox to sample a color, switch from dodge to burn, or clone. Order an award-winning Wacom graphics tablet and find out why 500,000 Photoshop, Illustrator, and Painter users swear by their Wacom.

Watch your home designs come to life!

Design Your Own Home® 3D WalkAround

This state-of-the-art home planning and design software program brings your building and remodeling ideas to life! Raise walls, put up wallpaper, lay carpet, place furniture and appliances, and see it all happen in 3D – just as if you were in the room!

3D Walkaround gives you the ability to display both two- and three-dimensional views simultaneously. Once you've designed your new space, walk through your creation in a "real time" speed of up to 15 fames per second. View each room from every angle, making sure that living areas are comfortably spaced.

The pop-up texture viewer makes it fast and easy to apply hundreds of textures to over a thousand different 3D furniture and appliance objects. In addition, this user-friendly program has a unique wall tool, a stud tool for accurate stud placement, and multiple layers for creating plumbing and electrical schematics.

Requires: 68040 processor or faster with FPU; 8MB RAM; 30–50MB hard drive space; System 7.1 or later; CD-ROM drive.

CAD 0269 (CD-ROM) **$69.95**

There is also an advanced Storyboards feature that gives you greater control of your video. VideoDirector can automatically capture the first frame of every scene and display them on a storyboard. Now you can edit like a pro! And because VideoDirector does not digitize your video, there's no need to worry about extra memory, expensive video cards or filling up important hard disk space with cumbersome video files!

Requires: Mac Plus or higher; any 8mm or Hi-8 camcorder (or camcorder with infrared or wireless remote); any VCR with infrared or wireless remote.
GRA 1800
Publisher: Pinnacle Systems
Suggested Retail: ~~$199.95~~ **$129.95**

Quickly and easily edit your videotapes!

VideoDirector 2.0

Do your home videos contain footage of the ceiling instead of the family? Would you rather forget Johnny's fumble in the football game? With VideoDirector 2.0, you can remove unwanted scenes quickly and easily so your videotapes will include only your favorite footage.

Just plug the included SmartCable into your Mac and connect your camcorder and VCR. Now you're ready to make your directing debut! Browse through your camcorder tapes directly from your Mac and choose the scenes you want to keep. Drag and drop your highlights into the order you want – you can even combine scenes from multiple tapes. Press "Make Tape" and sit back as VideoDirector creates a new tape on your VCR...automatically! VideoDirector even creates attractive labels for your tapes.

▲ VideoDirector Features
Powerful, Friendly Tools

- Familiar-looking VCR-style controls
- Drag-and-drop editing
- Advanced cataloging – lets you sort and find scenes by name, date or subject
- Create attractive labels for all your camcorder and VCR tapes
- "Getting Started" tutorial
- Extensive on-line help

Powerful authoring tool for multimedia and the Internet!

Macromedia Director 6

Stream into the future with the leader in multimedia and Web authoring – buy the new Macromedia Director 6! Create Internet and hybrid CD+ Internet applications using the new object environment with drag-and-drop behaviors, live Web authoring, and streaming Shockwave.

Stream large, fully interactive Shockwave movies over the Web without waiting for the entire file to download – even over small bandwidth connections! Create and continuously publish CD/Internet applications, updating content from any server. Reach Java, Windows, and Mac OS users worldwide with new browser scripting and players.

Whether a novice or an expert, you can increase your productivity using the new Director 6 object interface. Create buttons with object properties and interactivity by using drag-and-drop behaviors. Animate up to 120 sprite objects simultaneously. Precisely synchronize sound and video to animation. There's no limit to what you can create with Director 6!

Requires: 68040 processor or faster; 16MB RAM; 40MB hard disk space; System 7.1 or later; CD-ROM drive.
Publisher: Macromedia **$399.95**

Integrated multimedia production and publishing tool!

ClickWorks™

Combining professional graphic layout and multimedia capabilities with fast authoring and integral database, ClickWorks allows you to create complex interactive multimedia projects fast and at a low cost. The intuitive user interface and modular design allow you to easily combine movie, image, sound, text, and animation files.

Advanced text editing capabilities!
With ClickWorks' powerful editing features, you can flow any file, including text, into polygon, oval, or rectangular frames. Text files imported from Microsoft Word, WordPerfect, and other programs maintain their original styling. And the text stays "live" at all times, even after it is styled, manipulated, and anti-aliased.

Set the standard once!
Easily automate the creation process and provide uniformity for your project by creating templates. Change a characteristic on the template and all related screens automatically adjust. You can even assign multiple templates to one screen.

Professional scripting made simple!
ClickWorks gives you professional scripting capabilities without you needing to program or write code – simply choose an option from a series of lists provided. Use ClickWorks timeline scenarios to successfully choreograph your presentation by controlling fade-ins and fade-outs of animation, synchronization of sound and graphics, and much more.

Click into the Internet!
Connectivity to the Internet means fast on-line updating. Use ClickWorks' WebLink extension to embed Internet URLs (including text and image files from any Web site) into your project so you can publish the most up-to-date live data.

Requires: PowerPC processor; 24MB RAM; 30MB hard disk space; System 7.5 or later.

AVerMedia

Cutting-edge features for professional presentations!

AVerKey3 TV Converter

Give your presentations the professional delivery they deserve with AVerKey3. This user-friendly computer-to-TV scan converter lets you display your presentation at up to 800 x 600 dpi in 16.7 million colors. And, your presentations will be virtually flicker-free with AVerKey3's Picture Attribute adjustment features.

Want to add impact and interest? Pan the screen and zoom into areas of emphasis. Freeze the screen while you discuss a topic at greater length. Or, use the underscan / overscan feature to retain display information. With the included remote control, you can walk about freely while controlling the flow of the presentation. And, you can display your presentation on the computer and TV monitors at the same time. AVerKey3 needs no software drivers – it's truly "plug and play" ready. Order yours today for great presentations tomorrow! **Remote control included FREE!**

GRA 0899 (shown)

Watch TV on your desktop at any resolution!

TurboTV

Introducing TurboTV, a PCI-based video capture card with integrated 125-channel television tuner for Mac and PC. Incredibly versatile and affordable, TurboTV is perfect for watching TV on your desktop or capturing video to your computer system.

This PCI bus mastering device delivers strikingly clear video directly to your graphics card over the PCI bus without any system performance degradation. As a bus master device, the video feed is pumped into the same buffer without ever involving the CPU, providing both flawless system and video performance. As a video inlay device, TurboTV is compatible with virtually all PCI graphics cards on the market today. Plus, TurboTV will play at any resolution and color depth in a scalable window; ensuring compatibility with any desktop system!

The card's TV component accepts composite and S-video input from any NTSC or PAL video source (cable TV, VCR, antenna, etc.) and includes software controls for video, image capture, and all TV navigation and sound controls. The hardware supports Closed Captioning and Intercast technology. In addition, TurboTV captures still images and video to QuickTime standards.

Whether watching TV while on-line, paying bills, or recording video for a digital home movie, TurboTV is the complete convergence solution and a must-have device for your home computer! Order yours today!

Requires: PCI Power Macintosh or higher; available PCI slot; system 7.5.2 or later
Manufacturer: Integrated Micro Solutions

DRI 1956 ..... **$149**

The only scan converter in a PC card!

TView PresoCard

All Come with FREE Electronic Marker software

The TView PresoCard is a revolutionary breakthrough in presentation technology! This compact, lightweight computer-to-TV video converter gives you the power to display presentations, games, and multimedia on any TV. It fits into any portable computer's Type II or Type III PC Card slot for unparalleled mobility.

With TView PresoCard, you'll be able to deliver big screen impact without the size and weight associated with presentation monitors and portable projection devices. PresoCard supports resolutions up to 640 x 480 pixels @ 60Hz in up to 16.7 million colors for accurate image output.

Now whenever you are on the road, you won't have to think twice about being ready for large group presentations. A simple connection to any standard television and you'll be on the road to better communication!

GRA 2047 ..... **$199.95**

TView Micro Presenter

This pocket-sized unit makes it possible to transmit images from a desktop or laptop computer to any size television for business presentations, classroom teaching, training sessions, game playing, and more. Four microtouch buttons let you manipulate the position of the computer image on the TV screen so that full windows, toolbars, and other necessary functions are visible. L•TV Micro Presenter supports 24-bit color, connects to a computer's video port, and is compatible with any VGA/Multi-Scan monitor.

Requirements for all: Any Mac OS computer or PowerBook with video output; PowerBook Duo with video dock; RF modulator for TV receiver.

GRA 1292 ..... **$119**

TView Micro Presenter Plus with Remote

Combines the L•TV Micro Presenter TV with the Micro Commander, a cordless infrared, remote mouse.

GRA 1723 ..... **$169**

FOCUS enhancements

TView Presenter

The TView Presenter provides a quick and efficient way to show your Macintosh multimedia presentation on a TV. Simply plug TView Presenter into the video-out port on your computer. Then connect it to any TV with composite or S-video input. The video stabilizer feature delivers line averaging technology that keeps your images from jumping around the screen. Best of all, Hardware-Controlled Image Compression allows you to adjust images one pixel at a time for easy centering. Plus, it supports video output up to 16.7 million colors, and IBM VESA standard video cards offer frequencies up to 72 Hz. No software is required, just plug it in and you're ready to go.

Requires: Any Mac OS computer or PowerBook with video output; compatible with 12", 13", or 14" RGB monitors; 15", 17" multiple scan monitors; all VGA monitors.

GRA 1100 ..... **$269**

MW ★★★★★ -1/96

Connect your computer to any Television or VCR!

TView Gold

Comes with FREE Electronic Marker Software

TView Gold is an external plug-and-play hook-up that allows you to view computer presentations on any television. Unlike many similar products, TView Gold features built-in Fit-TV™ so that its output (up to 800 x 600 dpi) exactly reproduces your computer's display on TV. It supports resolutions up to 1024 x 768 pixels in 16.7 millions colors. You'll be able to use TView Gold throughout the world since it supports NTSC and PAL.

TView Gold uses pioneering line averaging technology with the video stabilizer to virtually eliminate screen flicker. Sharp View™ advanced circuitry cleans up any residual smearing so text is sharper, colors truer and more vibrant, and image resolution is higher. With Clear Image™, you will be able to present clear text using any standard TV with an RCA video input.

Included: FREE Electronic Marker software.

WHY YOU NEED MORE RAM!

Next to buying a new computer, installing additional memory in your current Mac OS computer is the single ***BEST*** investment you can make! The very first time you run with more RAM, you'll be able to...

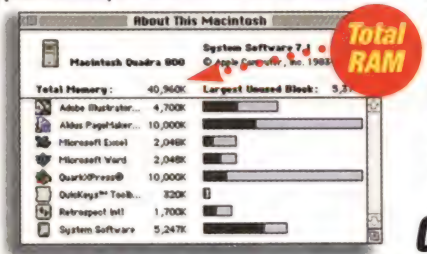
- ✓ *OPEN and USE MORE applications at the same time!*
- ✓ *Use MORE of your applications' advanced features!*

World Wide Web Note:

Did you know that loading your Mac OS computer with more RAM is one of THE BEST moves you can make to get better access to the Internet? In fact, it's just as IMPORTANT as having the latest, fastest modem! (See our modem section in this catalog.)

How much RAM do I have now?

Simply look under the Apple menu in the Finder and select "About This Macintosh"...You will see your computer type, Mac OS software version, Total Memory or RAM, Unused RAM, and how much memory each open application and your Mac OS software has reserved.



The "About This Macintosh" box shows your total RAM, how much memory each application uses, and how much unused RAM you have available.

How Do I Get More RAM?

If you know the type of Memory Module(s) you need, chances are you'll find it on our BEST-SELLERS list below. If not, simply turn to our complete listings on the following pages. If you still don't find the Memory Modules you need, call our 24-hr. MEMORY UPGRADE HOTLINE, and one of our Memory Upgrade experts will help you select the type and quantity of Memory Modules you need to order. What could be easier?

Overnight delivery available!

MacWAREHOUSE sells only HIGH QUALITY MEMORY MODULES FROM TOP MANUFACTURERS!

30-DAY MONEY BACK GUARANTEE

MacWAREHOUSE Memory Upgrades are supplied by top manufacturers and are tested for performance and quality in temperatures from freezing to 158°F.

Plus, every Memory Upgrade comes with a 30-day Money Back Guarantee. If, for any reason, you're not delighted, just call us for a return authorization number, and return the products with the original packaging and documentation for a full refund (excluding shipping). These Memory Upgrades are guaranteed for two full years against defects.

Our Lowest Memory Prices Ever! Call Now!

- *Mac II requires FDHD Upgrade to use 4MB SIMMs and have a PMMU installed.*
- *Mac II will only start up with 4MB SIMMs placed in Bank B.*
- *Centris/Quadra 650 and Quadra 800 use "Memory Interleaving" when SIMMs are paired (ie. Two-8MB SIMMs). This will improve performance 5-10%.*
- *Centris/Quadra 610 has two SIMMs slots. Centris/Quadra 650 has four SIMMs slots.*
- *We recommend having an Apple authorized repair center install SIMMs in the Mac Plus, SE, SE/30, Classic, Classic II, Color Classic, Performa 200, and all PowerBook models.*
- *To install SIMMs in the Mac Plus, SE, Classics and PowerBooks, you may need a special toolkit. These are available from MacWAREHOUSE at minimal cost.*

View your photos on the built-in Display!

Fuji DS-7 Digital Camera

The Fuji DS-7 lets you take pictures, view them on the built-in 1.8" LCD Monitor, and then choose to either save or delete them BEFORE downloading to your computer! Save your pictures to the state-of-the-art 2MB Smart Media removable Image Memory card. It's small, portable and inexpensive... and stores up to 60 images at one time. Then, download to your Mac via a cable or to your PowerBook via optional PC card adapter.

The Fuji DS-7 takes great-looking photos, too. It features Fuji image technology which uses 350,000 square pixels (640 x 480 resolution) for higher quality images. There are portrait and landscape modes, plus a macro mode that lets you get as close as 4" with fixed focus! Two light settings, auto exposure and auto white balance help you take the perfect picture every time! **Includes Adobe Photo Deluxe on CD, 2MB Image Memory Card, NiCad battery charger and four AA batteries.**

OLYMPUS

From the world's largest manufacturer of compact cameras.

MacUser AWARDS Editors' Choice 1996 Winner

Includes Adobe PhotoDeluxe software!

Olympus High Resolution Digital Cameras

Olympus leads the way into the digital age with the compact, easy-to-use D-200L and D-300L cameras. Featuring focus-free operations from 2.5 feet through infinity, They deliver high-resolution images with a wide-angle lens similar to a 35mm camera.

Perfect for creating pictures to use on the Internet, these cameras come complete with cables and software for downloading to Windows or Mac operating systems. And they come with Adobe PhotoDeluxe software so you can customize photos to create greeting cards, calendars, and newsletters.

Features:

- 1024 x 768 pixel D-300 holds up to 120 images
- 640 x 480 pixel D-200 holds up to 80 images
- View up to 9 photos simultaneously on built-in LCD screen
- Selectively erase or lock stored images within camera
- Four-mode flash features red-eye reduction and fill-in flash
- Comes with cable and software for downloading to Mac and Windows
- Uses 10:1 compression ratio resulting in superior image quality
- A spherical five-element glass lens assembly for crisp imaging

The invoicing, purchasing, inventory updating, shipping, contact managing so you-don't-have-to software!

OrderMaster™

OrderMaster is a comprehensive business system that gives you the power to handle almost any business task. You'll be able to create new accounts, associated contacts, quotes, purchase orders, and invoices in a matter of minutes. OrderMaster links purchase orders to inventory, providing a complete picture of your current inventory. Contact management and sales pipeline reports keep your staff ahead of the game.

With the click of a button, OrderMaster helps evaluate profitability with a variety of reports, including account history, daily recap, sales tax and analysis, and commissions. The purchase module will track inventory, receiving, and backorders for you. The comprehensive UPS shipping module automates shipping and labeling and generates your daily UPS Host Manifest. Order Master supports other software/hardware extensions to integrate all your sales-related functions. And since OrderMaster is 100% cross-platform compatible, Macintosh and Windows users can work off of the same network!

Requires: 8MB RAM; 10MB hard disk space; System 7.1 or later; CD-ROM drive.

Authorized Catalog Reseller

An integrated client/server solution for remote network access!

Apple Remote Access Personal Server 2.1

Apple Remote Access (ARA) Personal Server includes everything you need to allow a Macintosh computer to communicate with another Macintosh or an entire AppleTalk network over standard telephone lines. You can work wherever you like – at home or on the road – and retain access to all of the resources of your office computer or network.

ARA Personal Server 2.1 supports a variety of leading modems and a range of network types, including LocalTalk, Ethernet, and Token Ring. It features full System 7 integration, built-in industry-standard data compression and error detection, Apple's smart buffering technology, and several security options. Plus, it generates an activity log so you can easily track usage.

Getting started with ARA Personal Server is easy! The software features single-step installation that requires no special technical knowledge and adjusts automatically to your network. ARA Personal Server includes software for only one client, additional client software must be purchased or licensed separately.

Requires: 4MB RAM; hard disk drive; System 7.1 or later; Apple or Hayes-compatible modem (2400 baud or higher).

COM 0618 $99.95
Publisher: Apple

Apple Remote Access Client 2.1

Get your work done easily and efficiently – wherever you are – with Apple Remote Access (ARA) Client Server 2.1. It allows you to access services remotely in the same intuitive way you work with services locally. Because it works with all ARA-compatible servers, it lets you choose the level of server support you need, whether you belong to a small workgroup or a multi-national corporation. ARA Client installs in minutes and is remarkably easy to use. Built-in DialAssist technology allows you to build dialing sequences so you can connect easily from anywhere in the world. Plus, ARA Client supports System 7 and contains features to help manage everything from repeat connections to connection time.

Requires: 4MB RAM; hard disk drive; System 7.1 or later; Apple or Hayes-compatible modem (2400 baud or higher); ARA-compatible server.

COM 0616 $59

Apple Remote Access MultiPort Server 2.1

The Apple Remote Access (ARA) MultiPort Server provides a flexible, scalable, and secure way to offer network access to large numbers of remote or mobile users. Used in conjunction with one or more Apple Remote Access Serial Cards, it allows a Mac to support 4 to 16 simultaneous dial-up connections.

The ARA MultiPort Server installs in minutes and features sophisticated management capabilities, including industry-standard SNMP support. Adding ports is simple, and the server features an automatically generated activity log. In addition, the ARA MultiPort Server offers a host of sophisticated security features such as password aging, location validation, and the ability to filter access to services.

The ARA MultiPort Server includes support for 4 ports and Apple Remote Access Client software for 4 systems. Additional client software must be purchased or licensed separately. Support for 8, 12, or 16 ports requires purchase of 1, 2, or 3 Apple Remote Access MultiPort Server 4-Port Expansion Kits* respectively.

Requires: 5MB RAM; hard disk drive; System 7.1 or later; Apple or Hayes-compatible modem (9600 baud or higher); Apple Remote Access Serial Card; Apple RS-232 Cable.

COM 0617 NuBus
COM 0619 PCI $829

* These expansion kits are not available for Power Macintosh computers or Workgroup Servers 6150, 8150, or 9150.

MacX 1.5
NET 0588 $229.95

Apple IP Gateway

Apple IP Gateway allows anyone with Apple Remote Access, LocalTalk or other AppleTalk network connection to connect easily to an Ethernet-based TCP/IP network. With Apple IP Gateway, you can use the full range of Internet Protocol (IP) services like Telnet, File Transfer Protocol (FTP), Gopher, World Wide Web and Wide Area Information Servers (WAIS). It allows a single MacTCP configuration for all IP users on the LAN, eliminating the need for individual IP addresses. It even lets mobile, remote and local users access the Internet.

Requires: 4MB RAM; System 7.1 or later; Ethernet connection to an IP network; Client computer requires MacTCP client software.

Text editing for programmers and Web designers!

BBEdit 4.0

When you need to edit and manipulate large amounts of text, turn to BBEdit 4.0! This powerful program features an advanced search engine, seamless integration with a variety of languages, and an incredible set of tools for HTML creation.

At the heart of BBEdit's editing ability is a powerful engine for searching text, either literally or with UNIX™-style "grep" patterns. This search engine is coupled to multi-file directory scanning and has the ability to search currently open windows, previously searched files, or project documents (even if your development environment isn't running).

As an external editor, BBEdit features seamless integration with THINK C/ Symantec C++ and Metrowerks CodeWarrior, as well as awareness of Projector and direct support for ToolServer. In addition to the editing capabilities, you'll get support of the latest system software technologies such as AppleScript, Macintosh Drag and Drop, and Quickdraw GX printing.

As an HTML editor, BBEdit offers HTML keyword/source-code coloring, drag-and-drop HTML tools, an HTML-aware spelling checker, and multiple undos. You also get tools to check your HTML syntax, so you can use it to proofread code generated by graphical HTML applications.

Other features that make your life easier include: an integrated spelling checker, "soft" text wrapping, automatic linefeed translation, auto-indent, and more. Plus you can Easily extend BBEdit's capabilities with plug-in modules.

Requires: System 7.0 or better, recommend 7.5 & Mac-Plus or later, 700K of RAM or 68K machines; PowerMacs 1851K, HD: 2 MB space.

FORMERLY FUTURE SPLASH ANIMATOR!

Create fast, vector-based multimedia for the Web!

Flash 1.0

Easily create small, fast, and fun Shockwave multimedia for the Web with the new Macromedia Flash! Flash animations will help grab your audience's attention without slowing down their browsing experience.

Vector-based Flash files are so efficient, you can use numerous interactive animations, buttons, and graphics on every page of your Web site. Create interactive advertising banners, navigation buttons and panels, logos, technical illustrations, cartoons, and much more. Plus, you can import and animate graphics from popular illustration programs like Macromedia FreeHand.

Using vector technology, Flash keeps your files small for quick downloading. The compact Shockwave Flash player makes it a snap for everyone on the Web to view your creations. And because Flash files stream or play as they download, your content immediately appears in Web browsers — even over slow modem connections. Macromedia Flash is available for Windows 95/NT and Mac OS computers.

Increase your Web site's effectiveness with small, fast multimedia animations—order Flash today!

Requires: 68030 proessor or faster, 8MB RAM; 5MB hard disk space; system 7.5 or later.

WAV
The Next Generation Desktop
DIGITAL HARBOR™

Create media-rich documents with the first Internet-enabled word processor!

WAV™

Welcome to the latest innovation in word processing! WAV is the world's first word processor designed for OpenDoc™ technology. Besides powerful text-editing capabilities, WAV includes built-in Internet tools for accessing and retrieving information from the World Wide Web, as well as OpenDoc editors for inserting and editing tables, graphics, movie clips, and other objects. You decide what functionality you need and just plug it in with drag-and-drop ease!

With WAV, simply grab and place nearly anything you want to use in your document. Java™ Applets, URLs, component parts, Netscape™ plug-ins, e-mail text files, Word™ and WordPerfect® files, HTML files, PICTs, GIFs, JPEGs, graphs, sound files, and QuickTime™ movies all become integrated parts of WAV documents – not just links to system-consuming, traditional applications. Now you can use Web data instead of just browsing it by directly dropping Web objects directly into your documents! Catch the WAV!

Requires: 8MB RAM; Mac OS 7.5.1 or later; OpenDoc 1.0.4 or later.

COM 0730
Publisher: Digital Harbor **$69.95**

- **Folder Bay –** Simple-to-use, easily accessible text controls.
- **Cyber Button –** Create single-click hot links from within your document to any Web, network, or other file location. Instantly launch local applications, sound or movie files, images and more.
- **Embedded Part –** WAV documents are living documents where components can interact with each other – as well as WAV.
- **Dynamic Text Wrap –** When you drag a part into your document, you'll see how existing text wraps around the part as you move it – all in real time.
- **Embedded Web Page –** Never before has a word processor come with built-in Internet navigation, browsing, viewing and retrieval tools as a part of its control panel. When you open documents, WAV automatically opens live home pages or other embedded sites.

Java development made easy!

Symantec Visual Café™

Symantec Visual Café revolutionizes Java Development! Add animated graphics to Web sites or create sophisticated Internet applications with ease! Visual tools and a drag-and-drop user interface make it easy to get started. More experienced developers can take advantage of advanced programming tools, the most complete development environment, and the fastest compilers available.

Build Java Applications Visually!

The Rapid Application Development environment of Symantec Visual Café lets you build Java applets and applications visually. Use ready-made components that you can drag and drop onto forms. Creating new forms or user interfaces is easy! Simply select the component button, text block, dialog box, etc., and use the Interaction Wizard or Expert to specify interactions.

Does Not Require Knowledge of Java!

Symantec Visual Café allows you to become productive immediately, even if you don't know Java. Sample applications get you started quickly. You build projects visually: as Visual Café generates and displays code, you can see the code associated with each component, property, and interaction.

Handles Advanced Programming as Well!

Symantec Visual Café is a mature Java development environment capable of handling the most comprehensive applications. Its exclusive "just in time" compiler lets you build applications that run many times faster than the previous Java standard.

Get the Latest Enhancements Free!

You can incorporate the latest Symantec Visual Café enhancements at any time with FREE downloads from Symantec's Web site.

Whether you are a novice or an experienced Java programmer, you'll be able to easily bring your Web site to life! Order Symantec Visual Café today!

Easily publish documents on the Web with this exciting bundle! You'll be able to create exciting new documents for the Web as well as convert existing documents into HTML. And, besides being easy to use, both products work great together!

Easy Web Page Creation!

Claris Home Page makes the Internet truly usable with WYSIWYG page creation. Design a page by entering text in a format similar to a word processor and choosing items from pull-down menus and the Tool Bar. Claris Home Page does the rest, automatically generating the HTML code. You can drag and drop form elements onto your page like text field boxes, pop-up windows, checkboxes, and buttons. It can even create hyperlinks to other Web pages. For more advanced users, Claris Home Page allows you to access and edit the HTML code, use frame layouts, create tables, embed Java applets, and more!

Automatic Conversion to HTML!

Myrmidon is an ideal tool for anyone who has existing documents that need to be published on the Internet. With one click, Myrmidon can convert any document into an HTML document. Just print to create a Web page – no new commands to learn and master! It preserves the formatting and style of the original document, and will even convert virtually any type of table format, including tab-delimited and space-delimited. Since it also automatically converts all images to GIF format, Myrmidon is truly a one-click Web page converter.

100% Compatibility!

Best of all, both programs work well with each other. Let Myrmidon instantly convert any document to HTML, then edit the HTML with Claris Home Page and make it really sizzle. The HTML that Myrmidon creates is 100% compatible with Claris Home Page.

Helpful for All Internet Users!

Whether you are a novice or an expert with HTML, these two powerful tools will be able to save you time and energy when publishing documents on the Web! Put your work on the Web – order the Claris Home Page 2.0 and Myrmidon Bundle today!

Requires: 68030 processor or faster; System 7.1 or later.

Claris Home Page 2.0 Features

- WYSIWYG page creation
- Libraries for frequently used items
- Support for tables of different column and row sizes
- Find-and-replace text feature
- Drag-and-drop, pre-made form elements
- Automatic GIF conversion
- Document statistics window

Myrmidon's Top Five Features

1. Works with any application that prints, such as Word, Excel, PageMaker, and QuarkXPress.
2. It preserves the formatting of the original document.
3. It's smart about converting text to appropriate HTML items (headings, paragraphs, lists, tables, and more).
4. It will convert any type of table format: tab-delimited, space-delimited, and text that spans columns.
5. It produces legible HTML code, making it easy to read and edit.

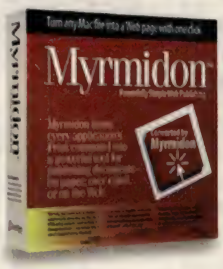
The easiest Web page creator of all!

Myrmidon



Other Web authoring tools may claim ease of use, but Myrmidon makes Web page creation as easy as clicking the mouse. It's ideal for turning any existing document into a Web page. Just select Myrmidon in the Chooser, then print your documents to turn them into Web pages – complete with headings, paragraphs, lists, tables, and images. There are no new commands to learn and master!

Myrmidon works with any application that prints, including Word, Excel, PageMaker, and QuarkXPress. It preserves the formatting of the original document, converts text to appropriate HTML items, supports any type of table format (tab-delimited, space-delimited, etc.), produces clean and legible HTML code, and automatically converts all images to GIF. Whether you're a novice or an expert, Myrmidon will save you time and energy when publishing documents on the Web. Order Myrmidon today – nothing could be easier!

Intelligent networking between PCs and Macs

MacUser AWARDS Editors' Choice 1996 Finalist

Easily share files, printers and more between MACs and PCs!

PC MACLAN for Windows 95

PC MACLAN helps you get the most out of all your equipment by providing full peer-to-peer sharing between your Macs and Windows 95 PCs.

The software is installed in the PC – none is needed for the Mac. PC Windows 95 users can log in to any Macintosh, AppleShare or AFP file server via network neighborhood to share files, hard drives, CD-ROM drives and floppy drives. Mac users can access Windows 95 files and drives through the standard Macintosh Chooser interface. Access can be controlled from each Mac and PC on a user–defined basis. Plus, PC MACLAN can save you money on printers and output devices! All Postscript printers available to your PCs or Macs can be shared equally between both Mac and Windows users. It's also the ideal compliment to any existing network and can be run concurrently with any other PC based LAN.

Requires: 8MB RAM; IBM compatible 386 or higher; Windows 95 operating system; PC adapter card. No software for the Mac is required.

Affordable 10Base-T networking solutions!

EtherWave Cards/Transceivers

EtherWave cards are now more affordable than ever, making them an economical solution for all your 10Base-T networking needs. Plus, EtherWave 10Base-T cards allow you to instantly add a computer to your network without the cost or hassle of pulling new wire. With EtherWave you can build small networks without a hub (up to eight users) or daisy-chain seven devices from any 10Base-T hub port. The EtherWave MultiPrinter Adapter gives you fast and easy connectivity for up to 8 LocalTalk devices. The NEW EtherWave PC Card allows you to connect your PowerBook 1400/5300 and your desktop to a single network port.

Telephony

MACWORLD MW ★★★★★ –10/96

"The advantages of automated call screening, blocking and paging bring Mac-based telephony into a new era." –MacWEEK

Integrate your telephone with your Macintosh!

YoYo

Caller ID Notification, Call Logging, Call Paging, Call Blocking. . .with YoYo and Caller ID from your phone company. Open up a whole new world of telephone productivity to your small office/ home office workers.

You'll never miss an important phone call with YoYo. When you are away from your office, it will send a caller's name and number immediately to your wireless pager.

YoYo keeps detailed logs of all your telephone calls—both incoming and outgoing. Information is logged by name, phone number, day, date and duration of call, allowing you to account for time spent on the phone.

YoYo can automatically access records in your favorite contact management software to prepare you for calls. Power Users can even send AppleEvents with an incoming caller's information to trigger actions in virtually any Macintosh application.

You can even block out unwanted callers any time of the day or night! Have YoYo send them automatically to voice mail without ringing your telephone. It will do this even if your Macintosh is turned off!

Requires: 5MB RAM; 2.5MB hard disk space; System 7.0.1 or later. Caller ID service is required for many features–contact your local telephone company for activation details.

Optiquest Value Line Monitors

The new Optiquest Value Line Monitors by ViewSonic® are ideal for building a quality system. Feature rich yet truly affordable, these monitors deliver outstanding quality for the home or office.

Optiquest monitors offer many advanced features, such as a flat square screen to project images to all corners of the display, and a fine dot pitch which produces brilliant, crisp images. The special screen coating reduces reflection, glare, and static while maintaining high image quality. And if that isn't enough, they include a unique microprocessor-based digital control system for adjusting screen images. All monitors meet VESA® DPMS™, MPR-II, and Energy Star™ standards.

Affordable color display designed for business productivity!

MultiView 21 Color Display

When working on you're Mac , no display gives you as much space to work in as the MultiView 21. With resolutions up to 1600 x 1200 @ 69Hz, you can see more cells on spreadsheets without scrolling. This lets you get to every part of your page layouts faster, saving you time and effort. Designed around an Invar Shadow Mask tube with Flat Square Technology, MultiView 21 offers the best image quality in its class. It has a .25mm dot pitch that makes text and images appear on screen with incredible clarity. And it uses two sets of electronic lenses to increase focus and spot roundness, giving you fewer moire' patterns and less color bleeding. What's more, MultiView Displays come with Dynamic Desktop® software that gives you on-the-fly resolution switching without rebooting or quitting applications. (19.7" viewable area).

Requires: System 7.1 or later; any Power Mac or Quadra with built-in video.

MON 0121 ..... **$1549**

PressView SR Series

The Radius PressView SR Series is designed for the most demanding color professionals. Each monitor supports multiple resolutions up to 1600 x 1200 @ 75 Hz. Users will enjoy accurate color using the single "ColorMatch®" button for viewing and separating CMYK images. The ProSense 1.8 calibration software includes Radius' ColorMatch® 2.0.1 profiles for ColorSync (ICC) compliant applications such as Adobe PageMaker 6.01 and Live Picture 2.5. Also, SR Color Reference Displays are engineered for professional on-screen pre-proofing. The three standard white point settings are easily adjustable for your viewing comfort. Display cabinets and viewing hoods are achromatic gray.

Requires: Mac OS computer with built-in video; System 7.1 or later.

HITACHI

MACWORLD MW ★★★★ – February 1995

MW EDITORS' CHOICE – 6/96

New Lower Pricing!

Sharper details and enhanced color purity!

SuperScan Color Monitors

Hitachi SuperScan Color Monitors give you an advantage you can clearly see! They all employ Hitachi's famous tri-dot shadow mask technology, resulting in crisper detail and improved readability for very small text.

The latest SuperScans use a new Hitachi EBU phosphor to provide even better color representation on screen and a wider color range for multimedia applications. To ensure the sharpest focus and a circular landing spot, Hitachi uses their Advanced-Elliptical Aperture, Dynamic Focus electron gun.

You'll appreciate Hitachi's improved user interface which gives you more control over monitor settings. The microprocessor control uses preset and user-selected settings to automatically detect and adjust to different display modes. Many models also include moire reduction, comprehensive geometry adjustments, and Hitachi's exclusive EasyMenu™ on-screen display system for precise monitor setup.

And of course, all models are tested against the latest safety and ergonomics standards including MPR II, and are compliant in areas of electrical and mechanical safety, ionizing and non-ionizing radiation, and screen flicker. SuperScan Color Monitors include a Macintosh display adapter and a three-year manufacturer's warranty.

Monitors

Portrait Displays, Inc.

3 Year Warranty

MacUser ★★★★ – MacUser 12/95

View entire Web pages!

Pivot 1700

Portrait Displays now offers two versatile 17" (15.9" viewable display area) color pivoting monitors with advantages unmatched by comparably priced traditional monitors. Offering both portrait and landscape views, these monitors let you see documents, images and Web pages the way you want to. When pivoted to portrait mode, the vertical page view is larger than that of a 21" monitor, allowing you to view full Web pages or read full-size 8.5" x 11" documents– with plenty of room for toolbars and icons. And you can switch to landscape mode without closing your application.

The Pivot 1700 features a flat square CRT with 0.26 mm dot pitch or a 0.28 mm dot pitch. With a 75Hz refresh rate, it gives you virtually flicker-free images in up to 16 million colors with resolutions up to 1024 x 768. The Pivot 1700 also comes with a built-in antiglare screen, tilt/swivel base, video driver software and fully accessible, easy-to-use digital controls.

The Pivot 1700 is EnergyStar compliant and meets MPR II standards for reduced emissions. It's fully compatible with all the built-in graphics capabilities of your Macintosh or Mac compatible system—no extra graphics cards are required. It's even compliant with all PCI graphics cards. Plus, it's backed by a full three-year warranty.

Find out why this versatile monitor took MacHome Journal's 1996 Editor's Choice Award—order the Pivot 1700 today!

INTEGRATED MICRO SOLUTIONS

Fast PCI graphics accelerators for your PowerPC computer!

TwinTurbo 128M PCI Graphics/ Video Accelerators

With the high performance 128-bit memory architecture, the TwinTurbo 128M series are one of the fastest Graphics Accelerators available for PowerPC systems. Unlike lesser 64- and 96-bit accelerators, the TwinTurbo 128M increases its speed proportionally as users operate in more demanding deep colors modes. Users will instantly see and feel the results of the extreme processing power of the TwinTurbo 128M series. Available in four configurations.

Requirements for all: Any PowerPC with PCI bus architecture, System 7.5 or later, available PCI slot.

Manufacturer: Integrated Micro Solutions

TwinTurbo 128M2

- 2MB VRAM
- Resolutions to 1920 x 1080 pixels
- 140MB/sec. sustained image scroll rate
- Upgradable to 4MB VRAM

DRI 1317 ..... **$299**

- 4MB VRAM
- Resolutions to 1600 x 1200 pixels
- 160MB/sec. sustained image scroll rate

DRI 1212 ..... **$399**

TwinTurbo 128M8

- 8MB VRAM
- Resolutions to 1920 x 1080 pixels
- 200MB/sec. sustained image scroll rate
- Scaling hardware and pan/zoom features

DRI 1550 ..... **$699**

Built-in video encoding!

TwinTurbo 128MV2

The new TwinTurbo MV2 has built-in video encoding, allowing users to cable their PowerPC computer to a TV or VCR and instantly have recordable video from their desktop. It's the perfect way to turn your PowerPC system into a family entertainment center wherever a TV is found. Unlike other TV out cards, the MV2 allows you to launch your Mac with only a TV attached – no digital monitor is needed! MV2 provides both composite and S-Video compatibility and an advanced "flicker filter" for maximum interlaced signal quality.

Requires: Any Power Macintosh or Mac OS compatible with PCI bus architecture; System 7.5 or later; available PCI slot.

PCI compatible, nonlinear video technology!

VideoVision PCI

Get the proven performance of VideoVision Studio for the Macintosh PCI platform! VideoVision PCI features real-time, high-quality video input and output, synchronized 16-bit CD-quality stereo audio at up to 48KHz, and 24-bit color. It can capture full-screen, full-motion, 29.97fps digital video input and output to and from your hard drive. With unsurpassed real-time hardware accelerated JPEG compression and decompression of each video frame, you can perform nonlinear, frame accurate, video editing. It delivers broadcast quality video output in NTSC and PAL formats. To make it a complete video production solution, VideoVision PCI comes with a software bundle that includes **Radius Edit 2.0 and Adobe After Effects.**

Requires: Power Macintosh 7500 or later; 32MB RAM (48MB recommended for professional quality video); hard drive; System 7.5.1 or later; QuickTime 2.1; NTSC/PAL monitor recommended.

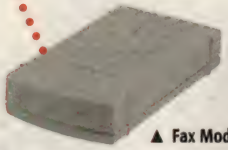
▼ Digital Camera

▲ Personal Digital Assistant



▲ Fax Modem

▲ Printer

Switch between four 9-pin serial devices with ease!

POWER Port Juggler

Easily turn your PowerPC computer's one port into four ports with Momentum's POWER Port Juggler! Now you'll be able to connect any four serial devices to one port on your Mac. Connect fax modems, printers, scanners, digital cameras, graphic tablets, and more!

Designed specifically for use with your PowerPC computer, POWER Port Juggler supports devices that use the 9-pin serial port such as Apple's GeoPort Telecom Adapter. Just plug in your serial devices and POWER Port Juggler will automatically switch between the devices. You'll be able to use a variety of devices without the hassle of plugging and unplugging cable.

With POWER Port Juggler there aren't any manual knobs to turn or even buttons to press on the screen. Just teach POWER Port Juggler once where its devices are connected and it will take care of switching to the right port at the right time. POWER Port Juggler even turns on the fax software for a fax modem, starts up print spooling for a printer, and manages LocalTalk for a network printer and/or connection.

Increase your productivity when working with multiple peripherals on your PowerPC computer – order the convenient POWER Port Juggler today.

Requires: PowerPC processor; System 7.5 or later.

Superior print quality and brilliant color!

Apple StyleWriter 2500

The Apple Color StyleWriter 2500 provides outstanding speed and performance for color and black-and-white printing. The resolution is 720 X 360 dpi for both color and black and white pages! It uses Apple's ColorSync technology to closely match the colors you see on your display with the colors printed in your documents. It even features optimal ink density for the best possible output. It prints 5 pages per minute in black and white and .66 pages per minute in color. You can also share the Color StyleWriter 2500 over a LocalTalk, EtherTalk or TokenTalk network.

A super-affordable color printer!

Apple Color StyleWriter 1500

The Apple Color StyleWriter 1500 offers a complete solution for easy and affordable color printing. It produces output of 720 x 360 dpi with edge smoothing on black-and-white pages, and 360 x 360 dpi for color pages. It supports ColorSync™ color matching technology, ensuring that the colors you see on-screen closely match the colors you see printed. Native PowerPC™ software speeds up the processing and printing of complex documents – 3 ppm in black-and-white mode and .3 ppm in color mode. The Color StyleWriter 1500 also comes with 64 TrueType™ fonts and prints on a wide range of media including plain paper, envelopes, transparencies, labels, glossy paper and more.

NEW! Color Page Scanner!

Full-page portable scanner!

S600C Page Scanner

Scan full sheets in a single pass with the portable S600C Page Scanner! It is ideal for use with PowerBooks or for the Internet. You can scan business cards as well as legal sized pages (8.5" x 14") in optical resolutions up to 300 x 600 dpi in 24-bit color. The S600C Page Scanner is also fast, scanning documents at speeds up to 6 pages per minute! It weighs approximately 3.5 pounds and measures 11.5" wide x 4.2" deep x 3.5" high. There is even a 10-page document feeder that allows you to scan multiple documents without having to feed them each by hand.

Plus, you get a great software bundle with the S600C Page Scanner! TextBridge OCR from Xerox is perfect for use with all word processing, document image management, and publishing applications. PageManager from Preston allows you to print, copy, fax and e-mail your documents with a touch of a button.

The S600C Page Scanner is everything you have been waiting for in a portable scanner, giving you the freedom to create and enhance your documents wherever you go! Order today!

LinoColor
Color is child's play.

Linotype-Hell

MacUser RATED 4½ - 2/97

Fast, high-quality scans for page layout and the Web — at an affordable price!

LinoColor JADE Scanner

If you've been waiting for a simple, inexpensive color scanner that delivers great results, try the new JADE scanner with LinoColor VisuaLab EZ™ software. JADE was designed for the desktop user who wants to get print-ready scans at the push of a button – without learning about color spaces or color corrections. LinoColor accomplished this by creating the powerful yet easy-to-learn LinoColor VisuaLab EZ software.

The ColorAssist™ intelligent scanning module analyzes and corrects your original scan automatically. It removes color casts, defines image densities, optimizes details in shadow areas, and performs other similar operations.

The JADE flatbed color scanner captures amazing optical resolutions up to 600 x 1200 dpi – 3600 x 3600 dpi with software interpolation! JADE features a 2.8 density range and 24-bit color depth using 8 bits per image dot and color. Through analog gamma corrections, you'll be able to work with 33-bit equivalent color images. And the Linocolor JADE Scanner is fast, delivering 300 dpi images in as little as 40 seconds!*

This versatile scanner can scan reflective art, transparencies (with the optional transparency attachment), line art, contone, positives, and negatives. With a maximum scanning area of 8.5" x 11.7", JADE handles most of your scanning needs.

***Requirements when used with LinoColor VisuaLab EZ software: PowerPC processor; 32MB RAM.**

JADE

- CCD flatbed scanner with one-pass scanning
- Includes LinoColor VisuaLab EZ software with ColorAssist for automated image processing
- 600 x 1200 dpi optical resolution
- 3600 x 3600 dpi maximum software interpolated resolution
- 24-bit color depth
- 2.8 D density range
- ICC profile for scanner characterization
- 8.5" x 11.7" max. scanning area
- Includes Adobe Photoshop LE and TextBridge OCR software

LinoColor SAPHIR Scanner

MacUser RATED 4½ - 3/96

◀ Lino Software

The award-winning LinoColor SAPHIR scanner combines state-of-the-art scanner technology with a full-featured version of LinoColor VisuaLab™ software. VisuaLab not only automates routine color corrections, it also offers additional functions for more sophisticated color manipulation. With its 36-bit image depth and optical resolutions up to 600 x 1200 dpi, SAPHIR offers exceptional power, flexibility, and professional results.

SAPHIR has a built-in transparency unit so you can scan any original, whether reflective art, transparency, color, black & white, contone or line art, positive or negative. LinoColor Capture Profiler software lets you create a custom ICC profile for your SAPHIR scanner. And the Fonts Just-In-Time CD gives you access to fonts from the prestigious Linotype Library™. Photoshop Full Edition and Xerox TextBridge OCR software are also included.

Requires: PowerPC Processor; 32MB RAM.

MACWORLD -6/95 MW ★★★★

SprintScan 35 LE

Like the original SprintScan 35 ES, the SprintScan 35 LE samples 35mm positive and negative transparencies and strips at 10-bits per color and delivers a 3.0 optical density range in under a minute. With a native optical resolution of 1950 dpi, the SprintScan 35 LE is ideally suited for creators of multimedia presentations, Internet Web pages and desktop publishing documents. You'll be able to optimize the size of your images to give them precisely the right amount of data needed for your display – without sacrificing the quality of the original scans. It features software-based color sharpening and correction as well as software image controls such as crop, resize, auto exposure, cast removal, gray balance correction and more. SprintScan 35 LE comes with a one-year warranty.

Requires: Mac II or higher (PowerPC recommended); 12MB RAM (32MB recommended); System 7.0.1 or later (System 7.5 recommended.)

INP 0913 ..... **$849**

Resolutions up to 2700 dpi!

SprintScan 35 Plus

New!

Meet the scanning challenges of high-quality design and publishing applications with the SprintScan 35 Plus slide scanner! Improving on its predecessor, the SprintScan 35 ES, the SprintScan 35 Plus scans 35mm positive and negative transparencies and strips at 12-bits per color and delivers a 3.4 optical density range. The 3.4 optical density range is the full range available in the best original transparencies, so your scans will capture very high shadow and color detail.

The SprintScan 35 Plus provides scans with 2700 dpi true-optical resolution in under a minute! You'll be able to create images with fine resolutions or confidently enlarge images up to 8.5" x 11". It also features hardware-based color sharpening and correction for the best output. You can adjust the image further with the included software: crop or resize the image, correct the color saturation, sharpen the details, automatically create highlights or shadows, adjust the tone curve and more. If features a SCSI II interface and a one-year warranty.

Requires: Mac II or higher (PowerPC recommended); 12MB RAM; System 7.0.1 or later.

Scan 35mm slides at up to 2700 dpi – in under a minute!

SprintScan 35 ES

Polaroid Digital

The Polaroid SprintScan 35 ES Slide Scanner is a fast and easy-to-use compact scanner that transforms 35mm slides into high-resolution digital images. In under one minute, it can scan positive and negative slides to produce 24-bit output in resolutions from 72 to 2700 dpi. With the SprintScan's use of 10-bit color (RGB) and 3.0 Dynamic Range, it detects a broader gamut of palette colors and even gives you better shadow detail. This supplies enough image data for a 8.5" x 11" full bleed output at a 150 line screen.

Polaroid's **Smart Preview** and **Image Adjustment Controls** allow you to see exactly how the image will look after it is scanned. Automatic real-time color processing and image sharpening help guarantee that your scanned image remains true to the original slide. It even comes with a scanning utility and a Photoshop plug-in.

Requires: Mac II or Quadra family; 8MB RAM (16MB recommended); System 7.01 or later.

PAPERPORT vx

Scan, organize and communicate with the world's most popular paper management software!

PaperPort vx

More than a scanner, PaperPort vx integrates the world's best paper management software with state-of-the-art technology for getting paper into your Mac OS computer. You get the easiest way ever to organize and communicate paper information as electronic data!

Simple to use!

Just feed paper in, then sit back and watch PaperPort vx turn itself on, launch its software, and place your document on screen, ready to use. And installation is simple, just connect PaperPort vx with the included SCSI adapter, install the software and you're ready to go!

Scan documents in seconds!

Advanced software and the direct SCSI connection gives you crisp images on screen in as little as two seconds. And PaperPort vx accepts anything from business cards to full size news columns. Plus, you can scan photos in up to 256 shades of gray.

Scan, organize, and communicate!

Here's how PaperPort vx enables you to organize, file, edit, fax, copy, and e-mail all your paper information as electronic files from one easy screen:

- **Organize** – Simply drag and drop scanned documents to and from folders on your desktop, making filing and retrieving paperwork a cinch.
- **Fax** – Just drag any scanned document or stack to you fax icon, select the recipients from your address book, and it's off! SharpPage™ technology makes faxes from your Mac OS Computer razor-sharp!
- **Xerox TextBridge OCR (Optical Character Recognition)** – Virtually eliminate the need to re-type documents. And it's included Free!
- **E-mail** – Quickly distribute your paper documents as electronic documents using popular Internet or e-mail software. Includes links to America Online, Claris Em@iler, Lotus cc:Mail, Adobe PageMill, Adobe Sitemill and more!
- **PaperPort Links** – Automatically integrate paper directly into your favorite applications.

Eliminate desktop clutter!

With PaperPort vx you can keep electronic files of all types of documents – receipts, credit card statements, business correspondence, and many other paper documents – virtually eliminating messy paper files. For fast document input, order PaperPort vx today!

Requires: 68020 processor or faster; 2MB RAM (8MB recommended); 6MB hard disk space; System 7.1 or later; CD-ROM drive.

SIMM Expander

Now there's a way to maximize your memory while avoiding costly memory upgrades. The SIMM Expander package contains 4 miniature circuit boards that each contain 2 SIMM slots. Simply plug the Expanders into your machine's existing SIMM slots, use the 1MB SIMMs you already own, and add up to 4 more SIMMs in 1MB and 4MB combinations. You've effectively doubled your machine's memory capacity!

SIMMs

Two SIMM Expander packages will give you 8 empty slots and the potential for 64MB of memory. For Mac II and IIx, it eliminates the need for an expensive ROM upgrade or special PAL SIMMs. Now you can go from 8MB to 12MB of memory by adding four 1MB SIMMs and using the SIMM Expander with your current 8MB of memory. SIMM Expander is the answer to your memory problems.

Back up an entire network from your Macintosh!

Retrospect 3.0/ Retrospect Remote 3.0

Retrospect is the trusted software for single user/server backup to cartridge or tape. This award-winning program allows you to perform backups immediately or customize backups for automatic, unattended operation. The EasyScript feature makes it simple to automate every aspect of your back up, including which files to backup, what media to put them on, and when. Squeeze twice as much data onto your media with Retrospect's compression option.

Retrospect Remote 3.0 provides automatic centralized backup for 10 networked Macs. Run unattended backups on a set schedule or use the Backup Server to patrol the network looking for computers in need of backup–perfect for portables that appear and disappear off the network.

Requires: System 7 or later.

FEATURING SyQuest REMOVABLE TECHNOLOGY

Super-fast, 1.5GB removable storage!

SyJet™ 1.5GB

The SyJet 1.5GB from SyQuest solves the ultimate storage problem – limited hard drive space! With 1.5GB of capacity and super fast hard drive speed, you can access files in seconds.

Because SyJet works like a hard drive, you can work directly from it without sacrificing performance. With burst rates of 10MB/sec. and a 7MB/sec. sustained maximum read/write data transfer rate, SyJet is ideal for audio/video and other data-intensive applications. It also features seek times less than 12ms and a 256K intelligent caching buffer.

Best of all, you get this super fast performance in a portable unit! SyJet weighs less than 1.5 pounds and fits in your hand. For ultimate flexibility, the drive can be mounted in a horizontal or vertical position.

Like all SyQuest products, SyJet media is removable, so you'll never run out of space again. These rugged cartridges feature a 3.5" dual platter design that can hold up to 1.5GB of data. Store video clips on one cartridge, huge Photoshop files on the next, or store a complete movie or presentation on one cartridge.

An exclusive door seal gives you extra data protection by reducing the risk of contamination. You can remove and insert cartridges even without power. SyJet systematically cleans media and automatically drops into sleep mode when not in use.

Requires: System 6.0.5 or later.

External PCMCIA magneto-optical disk drive!

DynaMO® 230 Portable with PC Card

New!

Now, with the DynaMO 230 Portable with PCMCIA card, you can have all the high-performance benefits of a magneto-optical drive no matter where you are! The world's first 3.5" 230MB MO drive designed specifically for PCMCIA notebook users, the DynaMO 230 is the ideal solution for storing and using large databases, multimedia presentations, spreadsheets and video files.

Smaller than a 5" x 7" photograph and just one inch thick, it fits easily into your briefcase. What's more, it weighs less than one pound and is available with an AC adapter and an attachable battery pack that takes just four AA batteries.

The DynaMO 230 Portable PC Card drive uses 3.5" ISO-standard 128MB and 230MB rewritable optical disks. It features data transfer rates up to 1.6MB per second and average seek times under 65 milliseconds. Best of all, magneto-optical technology keeps your data secure by eliminating the possibility of head crashes and data loss due to shock or contact with magnetic fields. Compatible with all PCMCIA PowerBooks, including the 1400 and 3400 Series.

DRI 1817 *Manufacturer: Fujitsu* **$489**

5-pack 230MB Optical Media MED 0452 ..... $79.95

DynaMO® 230 Portable with PCMCIA Card Features:

- Store up to 230MB on ISO-standard, 3.5" rewritable optical disks
- Data transfer rates up to 1.6MB per second
- Average seek time under 65 ms
- Rotational speed: 2,700 rpm
- Works with any PCMCIA-compatible computer
- Powered by the attachable AA battery pack or AC adapter
- Dimensions (HxWxD): 1" x 4.4" x 6.4"
- Weight: 15.8 oz.

DynaMO 640 Drive

New!

Store up to 640MB at incredible speeds!

DynaMO 640 Magneto-Optical Drive

Fujitsu takes magneto-optical technology to new levels with the DynaMO 640! This state-of-the-art external drive stores up to 640MB on industry-standard MO disks, delivers data transfer rates up to 2MB per second, and provides 35 millisecond access times! It is perfect for multimedia, CAD/CAM, desktop publishing and a variety of other demanding applications. And with Over-Write technology, the DynaMO 640 further increases its write performance by 33 percent over previous-generation MO drives. Store your work on three different media capacities including new generation 640MB and 540MB disks as well as 230MB disks. Access data written on 128MB disks.

Smart-UPS

Use APC Smart-UPS to protect your data when creating or using large graphics files—or to protect the entire network which supports these applications. Line-interactive Smart-UPS protect your hardware and extend system life through superior full-time, multi-stage surge suppression and noise filtering. The SmartBoost and SmartTrim features automatically correct low voltage and high voltage problems, allowing you to work through brownouts and overvoltages without using battery power. When used with the optional PowerChute Plus software, Smart-UPS will safely store your graphics or text files and shut down your desktop or network operating system before the battery is fully discharged—whether you are there or not!

US Robotics
The Intelligent Choice in Information Access

Key Features

- **Shirt pocket size –** carry personal data anywhere!
- **HotSync Button –** one-touch synchronization!
- **Fast, compact UI –** provides instant data access and long battery life!
- **Modular design –** lets the user upgrade software or memory, or add peripherals!

Pilot

It's Portable!

Now a suite of personal information management applications (PIM) in one personal organizer can fit right into your shirt pocket! The Pilot pocket organizer provides one-finger data access with a touchscreen and physical buttons. The compact Palm Operating System (Palm OS) switches screens and launches applications instantly, yet is efficient enough that two AAA batteries can power the device for several months.

The Mac Connection!

Easily transfer or backup data with a desktop! The Pilot drops into a docking station that is connected to the desktop by a serial cable. Just press the HotSync button on the cradle and you'll automatically back up and synchronize data with the desktop! With HotSync, you can type in events or import addresses on the desktop, and download them to Pilot at the touch of a button.

Pilot's Own Software!

Pilot includes Mac companion versions of the organizer PIM applications. The desktop software serves as the gateway between Pilot and desktop applications.

Now you'll have everything you need to keep in touch with the information you need!

Specifications: Motorola 68328 Dragon processor; 512K of ROM; 128K or 512K of RAM; 160 x 160 pixel LCD screen; a custom RS-232, 9-pin connector, and 25-pin adapter; and a small plastic docking cradle which holds the device at a 40-degree angle.

New!

MessagePad 2000 with Newton 2.1

Get the convenience of a laptop computer in a unit that fits in the palm of your hand and weighs under a pound and a half! The Apple MessagePad 2000 handheld computer puts all the business applications you need at your fingertips, including word processing, spreadsheet, datebook, contacts, and to-do lists. And, Newton 2.1 software recognizes handwriting – printed, cursive, or a mixture of the two – with the assistance of a built-in 93,000 word list.

The new StrongARM processor in the MessagePad 2000 runs up to 10 times faster than any previous model. It also includes an expanded memory of 5MB RAM and 8MB ROM. The larger 4.9" x 3.3" backlit screen displays sharp graphics in 16 levels of gray at 100 dots per inch. And the internal microphone and speaker allow you to record and playback voice notes.

Slip a PCMCIA modem into one of its two PC Card slots and you can send and receive e-mail and faxes, and connect to the Internet or an Intranet. You can even pair the MessagePad 2000 with your cellular phone or wireless modem and connect from virtually anywhere.

The MessagePad 2000 includes all the cables and software you need to connect to your Mac OS- or Windows®-based computer. Best of all, the MessagePad 2000 can deliver over 24 hours of continuous battery life. No matter where or how you're traveling, the MessagePad 2000 is the smart choice for staying connected and for keeping critical information at your fingertips!

Apple Newton 130

Stay organized and productive while away from your desk with the Apple MessagePad 130 featuring the Newton 2.0 operating system. With a built-in notepad, to-do list, datebook, telephone log and address file, you'll always have important information right at your fingertips. And, the included Pocket Quicken software lets you log business expenses as they're incurred.

Loaded with more features than ever!

Now you can work any time day or night with user-controllable backlighting that sheds light on your work! The new anti-glare screen helps you work in greater comfort. And, increased system memory improves performance!

Now add the power of Newton 2.0 Operating System!

With additional memory and Newton 2.0 Operating System, MessagePad 130 is a communications powerhouse! Send and receive faxes, pages and e-mail (with optional PC card modem). Connect to the Internet. Enter data faster than ever with enhanced recognition capabilities and pop-up keyboards. Best of all, you can expand the power of your MessagePad 130 with a wide variety of software and peripheral devices. MessagePad 130 gives you the power to be productive anywhere you go – order yours today!

For the New PowerBook 1400!

FOCUS enhancements

Internal 10Mbps Ethernet solution

EtherLAN 1400-T

The EtherLAN 1400-T from Focus Enhancements is an internal 10Mbps Ethernet solution that installs in the expansion slot located under the keyboard of the new PowerBook 1400. The adapter utilizes the latest in 10Mbps Ethernet technology and provides solid reliability. In addition, the adapter leaves your PC Card slots open for other media.

The EtherLAN 1400-T comes with a Direct RJ-45 jack for direct connection to your 10-BaseT network without additional cables. It is usable on both twisted pair and co-axial networks, and is easy to install and configure. While your computer is in sleep mode, the EtherLAN 1400-T does not use power so it won't drain your battery. There is also network switching for use of built in IR connectivity. The card ships with an auto sensing installer that will install either classic AppleTalk or Open Transport drivers for operation in either environment. The EtherLAN 1400-T comes with a two-year manufacturer's warranty.

Requires: PowerBook 1400, available internal expansion slot; System 7.5 or later.

Manufacturer: Focus Enhancements

ACC 2463 ..... $109.95

EtherLAN 1400-T Features:

- Compact internal design
- Built-in 10Base-T (RJ-45) Connector
- Increased throughput and reliability
- AppleTalk and Open Transport auto sensing drivers
- High performance Ethernet Controller
- Lower drain on battery – extends the life of the card
- Low power sleep mode
- User-friendly installation for quick operation

A lifesaver for problem files!

CanOpener 3.5

With CanOpener you can scoop inside ANY file – document files, program files, system files, damaged files, even DOS files that are on a network or have been transferred to your Mac – and copy any text or pictures you find! Now you can read those pesky files your Mac can't open. Or those "mystery" files from some other system. Best of all, you can recover text from damaged files, even when all else fails. NEW CanOpener 3.5 now opens more picture formats, including DOS and Windows files! Supported formats include: BMP, CGM, EPS, GIF, ICON, IFF, JPEG Lotus RIT/RLE, Lotus PIC, MacDraw, MacPaint, PC Paint, Photoshop, PICT, QuickTime movies, RIFF, Silicon Graphics RGB, Sun, TIFF and more. It's perfect for accessing documents your Mac can't open or searching files to locate missing text and pictures.

"A must-have utility." ***MacUser, August 1995.***

Requires: System 6.0 or later.

Mac™ OS 7.6

Mac OS 7.6 is the easy way to get the most out of your Mac OS computer! It includes built-in Internet capabilities, enhanced productivity and efficiency, and advanced multimedia support.

Internet Access Functionality!

Easily connect to the Internet and its vast communications and information resources with the latest versions of OpenDoc, Cyberdog, and Open Transport software – as well as key connectivity tools such as TCP/IP, PPP, and ARA. In addition, the Apple Internet Connection Kit will be bundled with Mac OS 7.6, giving customers easy access to a complete range of Internet services.

State-of-the-art Multimedia!

Mac OS 7.6 brings together the latest versions of several of Apple's QuickTime technologies, collectively known as the QuickTime Media Layer (QTML). QTML makes it easier than ever before to produce and play back high-impact video, 3D graphics, and virtual-reality scenes.

Easy PC File and Media Exchange!

With the built-in PC Exchange and Mac OS Easy Open, you'll be able to open DOS and Windows disks without needing the application that created them. Plus, DataViz MacLink Plus translators will let users convert Windows files into Mac formats, and vice versa.

Built in OpenDoc/Live Objects Technology!

OpenDoc/Live Objects technology has been built in to Mac OS 7.6 so users will be able to freely drag and drop individual Live Objects software pieces into a document any way they like. You'll be able to combine features from many different applications – and across many platforms – to create customized software solutions.

Mac OS 7.6 also improves performance in key areas such as printing, and extensions management. Order Mac OS 7.6 today!

System Enhancement

Now Utilities 6.7

Now Utilities 6.7 gives you 12 great file and folder manage-ment utilities. You can display the contents of a folder without having to open that folder, making it easier for you to access files. It features intelligent Open and Save dialogs that remember recent files and folders so you can instantly open new files and save your current work. You can also create custom menus so you can directly access commonly used file and folders.

Requires: Mac Quadra or higher; 8MB RAM; 500k hard disk space; System 7.1.1 or later; CD-ROM drive.

UTI 1112 (CD-ROM) **$89.95**

Now Startup Manager 7.5

Now Startup Manager gives you complete control over control panels, extensions, fonts and plug-ins. Now Startup Manager searches for problems caused by startup files – including load order problems. It groups extensions by function so you can manage them more effectively. You can organize fonts and font sets without restarting your computer. Automatically convert Conflict Catcher sets. And, Now Startup Manager 7.5 easily manages third-party plug-ins like those for Netscape Navigator and Adobe Photoshop.

Requires: Mac Quadra or higher; 4MB RAM; 500k hard disk space; System 7.1.1 or later; CD-ROM drive.

Disk Management/ Anti-Virus

MasterJuggler Pro 2.0

MasterJuggler Pro provides complete font management. It gives you access to your entire font library instead of just 128 fonts. Store fonts anywhere – even share them over a network. Font sets allow you to group fonts by client, job, project or other criteria. Open and close fonts or sets of fonts as you need them without quitting all your open applications. Drag-and-drop support lets you open and close fonts from your desktop. Font Guardian checks fonts for corruption as they're opened so they'll never crash your Mac again. It also checks for missing printer fonts to help you avoid "jaggies." Font number conflicts are automatically resolved so the right font is always displayed. "Font gathering" copies the fonts you need to send to a service bureau. **"Picked as the preferred font manager." – *Macworld* 5/95 – *Adobe Magazine* 3/95**

Requires: System 7.1 or later.

The most advanced virus protection available!

SAM 4.5

This latest version of SAM keeps your files safe from viruses hidden in Internet downloads, compressed files, shared files and e-mail attachments. SAM's new SafeZone acts as a "virtual clean room" so copied or downloaded files can be scanned in isolation before you use them. SAM hunts down viruses before they damage your files and even repairs infected files. It protects against all known types of Macintosh viruses and includes an Auto Update feature to protect you from possible future viruses.

Requires: 2MB RAM; System 7.0 or later.

SAM 4.5 and Stuffit Deluxe 4.0 Bundle

Backup/ Compression

MacWeek 1/95 — MacWorld 8/93

StuffIt Deluxe 4.0

New StuffIt Deluxe 4.0 effectively doubles your disk space and can compress files up to 98%! With the True Finder Integration (TFI) control panel, you can work with archives in much the same way as you work with folders. The StuffIt Browser lets you easily create, examine and modify archives without leaving the Finder. Just double click on an archive to display the contents of the archive in a new window. To unstuff a file, simply drag the file from an open archive onto the desktop.

StuffIt Deluxe 4.0 improves the functionality of the Magic Menu by offering support for more Internet archiving and encoding file formats. Magic Menu can now expand StuffIt (.sit), AppleLink (.pkg), tar (.tar), Unix Compress (.Z), UUencode (.uu), BinHex (.hqx) and many other files.

Simply add ".sit" or ".sea" to a file or folder name and it will instantly be converted into a StuffIt archive or self-extracting archive. Conversely, if you delete the ".sit" or ".sea" from a file name, the file or folder will automatically expand. With DropSegment, you can now segment files and StuffIt archives using the drag-and-drop interface.

Requires: 4MB RAM; System 6.05 or later. (StuffIt Browser requires System 7.1.1 or later.)

▼ A-10 Cuba is one of the most realistic flight simulators ever created!

Up to eight players can participate through network play!

A-10 Cuba!

The second stand-alone flight simulation game in the "A-10" series places you and your squadron of A-10 Thunderbolts on the beautiful island of Cuba. Guerrilla forces have taken control and once again you must suppress enemies of freedom. Defend the run-down Naval Air Station at Guantanamo Bay. Transform aircraft and tanks into piles of smoking garbage with the largest airborne arsenal available to mankind!

A-10 Cuba! features an interactive cockpit with a Real-Time Advanced Physics-Based Flight Model. For enhanced mission planning capabilities, A-10 Cuba! can also be used with the Mission Editor included with the original A-10 Attack!

Requires: 33MHz 68LC040 (60 MHz PowerPC recommended) 5MB free RAM, System 7.0 or later, 256 colors, 640 x 480 display.

Publisher: Parsoft

A-10 Cuba, Missions at Guantanamo Bay
ENT 0975 (CD-ROM)
ENT 0974 (Diskette) ..... **$39.95 ea**

A-10 Attack!

From the creator of "Hellcats Over The Pacific" comes one of the most realistic flight simulators ever created! A-10 features an advanced physics model that accurately simulates aerodynamic behavior. A high-resolution 3D game engine renders the detailed database with real-time graphics.

Use the Mission Editor to modify flightpaths and targets of allied aircraft. You can observe the events on the tactical mission map, or jump into the action. As you fly along, you will cover over 40,000 miles of rolling terrain with rivers, canyons and mountains .

Requires: 68030 processor or higher; 4MB RAM; System 7.0 or later; 13" color display.

ENT 0979 (CD-ROM)
ENT 0912 (Diskette) ..... **$49.95 ea**

New Version!

Cutting-edge technology for improved flight simulation!

F/A-18 Hornet 3.0

Participate in truly fluid, high-speed flight simulation with the award-winning F/A-18 Hornet 3.0.! Accurate flight dynamics and the virtual cockpit closely simulate the Naval and Marine F/A-18 Hornet strike-fighter aircraft. Experience an exceptional sense of motion and detail with the proprietary, ultra-high speed 3D polygon-based rendering engine – up to 20 FPS in high resolution!

Test your flight and combat skills in 28 missions in the Persian Gulf. Destroy the enemy with heat-seeking AIM-9L "Sidewinders," the active radar guided AIM-120 AMRAAMs, the TV guided AGM-65E "Mavericks," and a host of other mud-moving weaponry. Sophisticated enemy pilot AI provide a constant challenge. For extra excitement, you can participate in six multiple-player missions with up to four networked players.

New features include extensive rolling 3D terrain with realistic atmospheric effects like sun glare, haze, cloud layers, and more. The exclusive multimedia training classroom provides over 90 minutes of flight and combat instruction with six training missions. Plus, there are radio voice messages, wingmen, an Instrument Landing System, and more.

Requires: PowerPC 8MB RAM, system 7 or higher.

New!

Power Rangers Activity Center

Ages 4 & up

Help the Power Rangers save the universe in this fun-filled activity center! You'll meet your favorite heroes and villains from the "Power Rangers " television show and visit such sites as Angel Grove, the Machine Sky Base, and even the Ranger's secret power chamber. This activity center features live-action video, spelling games, various levels of difficulty, hidden word games, jigsaw puzzles, mazes, images to color, and much more!

Requires: Performa 550 or higher; 2.5MB free hard disk space; System 7.1 or later; 2X CD-ROM drive.

EDU 2007 ..... **$34.95**

Suggested Retail: ~~$49.00~~

◀ In the ZORD Repair Bay you can build ZORDS from blueprints or create your own

Solve these codes on the Bat Computer ▶ using your math skills. You'll be a math wiz before you know it!

The Adventures of Batman and Robin Activity Center

Visit the *BatCave*, *Wayne Manor* and many other sites throughout *Gotham City* in this challenging and educational adventure for kids. Based on the hit TV series from Warner Bros. Animation, *The Adventures of Batman and Robin* Activity Center includes engaging activities, fun games and mind-bending puzzles with 3 levels of difficulty.

All of the activities help children develop memory, spelling, analytic and artistic skills. Create an antidote in the lab by combining the right chemicals. Piece together jigsaw puzzles featuring Batman, Robin, and your favorite villains. Try to find your way through the *Gotham City* underground maze. Use your math skills to solve codes on the Bat Computer. Take on The Joker in a game of concentration. Navigate the Batmobile through the streets of *Gotham City*. Even print out coloring book pages! And each time the game is restarted, the activities are recycled into a new pattern so your skills will be tested again and again.

Requires: Performa 550 or later; 8MB RAM; 10MB hard disk space; System 7.1 or later; color monitor; 2X CD-ROM drive.

EDU 1888 ..... **$34.95**

Suggested Retail: ~~$49~~

Featuring SyQuest

SyQuest 88c Drives

The most convenient way to backup and archive your data!

The 88c Drive reads and writes both 44MB and 88MB cartridges!

NOW ONLY $149.95 drive only

HURRY! At this price, they're going to go fast! Offer is good only while supplies last!

SyQuest—the world standard in removable storage!

Power User SyQuest Removable Drives offer Macintosh users a fast, high-capacity solution for data storage, transporting documents, archiving, and more. There's no data storage solution that's faster or easier to access—just boot up the cartridge the way you would your hard drive, and the information is at your fingertips within seconds!

The same reliable technology as conventional hard drives.

The same heads, motors, media, and electronics that are used for fixed hard drives are used in SyQuest's removable cartridge drives. This assures that your drive will provide you with the kind of access speed and reliability you've come to expect.

Compatibility and flexibility!

Power User SyQuest Drives come in a capacity to suit every need. Choose from 88MB and 200MB with 5.25" media. If you're looking for a flexible data storage solution with quick and easy accessibility, order the Power User SyQuest 88c removable drive today!

POWER USER SyQuest Drives (without cartridge) — 2-Year Warranty

POWER USER PRO

TSUNAMI

Power User Internal Hard Drives

If you're looking for a reliable, large capacity internal hard drive that's easy to install, then the Power User line has a drive to suit your special storage needs. Power User Internal Hard Drives use high-quality mechanisms by manufacturers like Quantum and Seagate. They feature data buffers between 128K and 512K and seek times as low as 8.5 ms for top performance. Power User Internal Drives come preformatted with powerful driver software. Backed by a one-year warranty.

1.2GB INTERNAL DRIVE $299.95 without bracket kit

Internal drive shown with bracket kit.

Opening the case of any Macintosh may void your Apple warranty. We recommend having an Apple authorized repair center install your drive.
